After criticizing the Puritans, she was removed from the church and forced to leave Massachusetts. Name this religious figure, who moved to present-day Rhode Island with some of her followers.

(ANNE) HUTCHINSON

16. He began his career in real estate, before owning the Miss USA and Miss Universe pageants and becoming a reality TV star on his show The Apprentice. After running against Ted Cruz and Marco Rubio, he secured the Republican nomination and defeated Hillary Clinton in the November 2016 presidential election. Name this man, the 45th president of the United States.

(PRESIDENT DONALD J.) TRUMP

17. The first permanent settlement in what is now this state was established by Swedes, who were later defeated by the Dutch. After the English seized the settlement, it was a part of New York, and then Pennsylvania until the American Revolution. What state takes its name from the title of Thomas West, twelfth Baron de la Warr [day-lah-WARR]?

DELAWARE

18. This symbol was created by a committee that originally included only Benjamin Franklin, Thomas Jefferson, and John Adams. After the president signs treaties and international agreements, the secretary of state adds it to the documents. What U.S. symbol shows an American bald eagle holding an olive branch in one talon, and thirteen arrows in the other?

(GREAT) SEAL (OF THE UNITED STATES)

19. This peninsula came under Japanese control in 1895 after a war with China. After World War Two, it was divided at the 38th parallel for administrative purposes. Identify this peninsula where war was fought until a stand-still in the early 1950s.

KOREAN (PENINSULA) (Accept: KOREA)

20. During the Civil War, not only was he a Confederate secret agent, but he also made his New York theater debut starring in Richard the Third. Along with several others, he unsuccessfully attempted to kidnap President Lincoln in March 1865. In Ford's Theater in Washington, D.C, who assassinated Lincoln?

(JOHN WILKES) BOOTH

21. This race track has a unique location, thanks to a shift in a certain riverbed. Although it is located in Kentucky, it sits north of the Ohio River's present course. Which park features thoroughbred racing just north of the Ohio River bridges in Henderson?

ELLIS (PARK)

22. This right, as it relates to a person's health information, is protected by the Health Insurance Portability and Accountability Act. Although not mentioned in the Constitution, it has been confirmed by numerous Supreme Court rulings. What right allows people to live free from unwanted intrusion into their affairs?

(RIGHT TO) PRIVACY

23. This bird, which symbolizes strength, courage, and freedom, lives only in North America. Although still protected, it is no longer on a federal list of endangered and threatened species. What is the national bird of the United States?

(AMERICAN) BALD EAGLE

24. This downturn was rougher in the U.S. and Europe than it was in Japan and Latin America. Among its causes were financial panics, misguided policies, and a drop in consumer demands. What period saw the stock market crash in October 1929?

(GREAT) DEPRESSION (OF 1929) (Accept: SLUMP OF 1929)

25. This part of Kentucky is bounded by the Pennyryle and the Ohio River. An area of nearly five thousand square miles, it is a mining and farming area. Identify this region of Kentucky that contains a number of fossil fuel deposits.

WESTERN COALFIELD(S)

26. This type of surface mining is usually done using area mining or contour mining. Area mining is most often used in Western Kentucky, contour in Eastern Kentucky. In what type of mining is a layer of soil and rock removed above a layer of coal?

STRIP (MINING)

27. Multiple answer required. One of these divisions is set up by Article One of the U.S. Constitution. Articles Two and Three establish the other two divisions. Identify, in any order, the three branches of the U.S. government.

EXECUTIVE, LEGISLATIVE, JUDICIAL (Accept any equivalent response such as PRESIDENT, CONGRESS, COURTS)

28. This woman was the wife of the French-Canadian trader Toussaint Charbonneau [too-SAHNT-SHAR-bun-oh] and traveled with both him and their infant son. As a member of the Shoshone [shoh-SHOH-nee] tribe, she served as a translator for the Corps of Discovery from 1805 to 1806. Name this Native American woman who accompanied Lewis and Clark on their expedition through the western United States.

SACAGAWEA [SACK-uh-juh-WEE-uh]

29. This term names a sport in which contestants find locations in sequence. As a sport, it had its first success in Scandinavia, but later spread throughout Europe and then America. Give this term for racing over a course consisting of checkpoints, found with the aid of a map and compass.

ORIENTEERING (Do Not Accept: ORIENTING)

30. This city was an early center of American culture, and the spiritual capital of the New England states. As a stop on the trade route with the West Indies, it had a steady supply of molasses from the Caribbean that led to a popular bean dish. Name this colonial city that abuts Massachusetts Bay, and is home to the Red Sox.

BOSTON

31. He was a soldier in three wars, and led the Kentucky militia in the Battle of the Thames [timz] while governor of the Commonwealth. As governor, he secured Kentucky from Native American attacks, and organized its first government. Name this first governor of the Commonwealth of Kentucky.

(ISAAC) SHELBY

32. He was minister to St. Petersburg under President Jackson, secretary of state under President Polk, and minister to Britain under President Pierce. As president, he failed to find a compromise that might have averted the Civil War. What Democrat was elected president in 1856?

(JAMES) BUCHANAN

33. Full name required. He was appointed minister to Portugal by President Washington. As secretary of state, he helped President James Monroe decide on the Monroe Doctrine. Name this sixth president of the United States, who was the son of the second president.

JOHN QUINCY ADAMS

34. This peak has a benchmark at 4,139 feet above sea level, although the peak is taller than that. At 4,145 feet, what is the tallest mountain in Kentucky?

BLACK (MOUNTAIN)

35. This symbol of freedom was designed by Frédéric-Auguste Bartholdi [fray-day-REEK oh-GYOOST bar-tawl-DEE]. At its base is a poem by Emma Lazarus titled "The New Colossus." What statue in New York harbor was a gift from France to the United States?

(THE STATUE OF) LIBERTY (Accept: LIBERTY ENLIGHTENING THE WORLD)

36. This symbol of freedom was designed by Frédéric-Auguste Bartholdi [fray-day-REEK oh-GYOOST bar-tawl-DEE]. At its base is a poem by Emma Lazarus titled "The New Colossus." What statue in New York harbor was a gift of France to the United States.?

(THE) STATUE OF LIBERTY (Accept: LIBERTY ENLIGHTENING THE WORLD)

37. This project began during President Eisenhower's administration, when a federal gasoline tax was established to help fund it. At its conclusion in the late twentieth century, it extended more than 45,000 miles. Identify this project that today carries more than twenty percent of all highway traffic, on roads like I-75 and I-64?

INTERSTATE (HIGHWAY SYSTEM) (Accept: INTERSTATES)

38. This was the first permanent English settlement in what is now the United States. At one point, it survived an attempt by Powhatan [POW-uh-tan] to starve them out of Virginia. Identify this colony where John Rolfe married Pocahontas.

JAMESTOWN (COLONY)

39. These are desires that can be satisfied by consuming a good, service, or leisure activity. Because people have differing ones, they purchase a wide variety of goods and services or choose to consume differing amounts of leisure time. What is the opposite of economic needs?

(ECONOMIC) WANTS

WAMPUM [WAHM-pum] (Accept: WAMPUMPEAG [WOM-puhm-peeg])

41. This area of Kentucky takes its name from a condition caused by repeated burning off of the forest cover. Before the coming of those of European descent, Native Americans did this to make grasslands for wildlife. What was this area called, a name similar to that of the county where Glasgow is the county seat?

(THE) BARRENS

42. This economic term is also used in science in speaking about the food web. Being a good one requires being careful about how you spend your money. What are you when you buy an ice cream cone, or pay to get your hair cut?

CONSUMER

43. This Civil War battle between the forces of Bragg and Buell happened almost by accident. Both had moved from Tennessee into Kentucky, and appeared to be heading for Louisville. By what name is this battle that took place in central Kentucky known near Danville?

(BATTLE OF) PERRYVILLE (Accept: (BATTLE OF) CHAPLIN HILLS)

44. This city was the site of both the First and Second Continental Congresses, and America's first capital. Both the Articles of Confederation and the Constitution were framed here. Name this city, where the founding fathers signed the Declaration of Independence at Independence Hall.

PHILADELPHIA (PENNSYLVANIA)

45. In 1780, the number of counties in what is now Kentucky grew from one to three, with Nelson County added four years later. By the time it became a state, Kentucky had nine counties. Today, how many counties does Kentucky have?

120

46. Companies that engage in this kind of economic activity rely on the "law of large numbers." By this they can estimate how frequently certain things will happen. What do they sell that requires them to guarantee against loss or harm?

INSURANCE

47. This region of the United States is generally flat grassland, drained by the Platte, Arkansas, and Canadian rivers. By what name do we know this area that includes the panhandle of Texas, northeastern New Mexico, eastern Colorado, and westernmost Kansas, a name that describes its elevation and its flatness?

HIGH PLAINS

48. In 2016, one of these events rampaged through Great Smoky Mountains National Park, affecting Pigeon Forge and Gatlinburg. California is known for them, and the 2018 season proved to be the worst on record for these often natural disasters. What are these disasters that typically occur under dry, windy, and hot conditions?

(WILD or FOREST)FIRES (Accept: FOREST FIRE)

49. It was in this building that the Declaration of Independence was signed. Carpenter's Hall, where the First Continental Congress met, is nearby. Name this building, the main tourist attraction of the Independence National Historical Park in Philadelphia.

INDEPENDENCE HALL

50. This term was given to a series of laws proposed by Henry Clay following California's request for statehood. Clay's purpose was to maintain a balance between free and slave states. What laws organized the territories of New Mexico and Utah, and allowed them to decide the slavery question for themselves?

COMPROMISE OF 1850

51. This American television show ended its fifteen-year run in 2016. Contestants try to impress a panel of judges with their singing, and make it to the final round. What talent show launched singers such as David Cook, Kelly Clarkson, and Carrie Underwood?

AMERICAN IDOL

52. His PT boat was cut in two by a Japanese ship during World War Two. During his administration, he faced crises in both Cuba and Berlin, but managed to secure a Nuclear Test-Ban Treaty. What president was assassinated in Dallas, Texas, in 1963?

(JOHN F.) KENNEDY (Accept: JACK KENNEDY or JFK)

53. This city's location, at the southwestern end of the Great Lakes system, encouraged its growth as the nation expanded westward. During Prohibition, it gained a reputation for corruption when people like Al Capone and John Dillinger held power. Name this city that Carl Sandburg called the "Hog Butcher, Tool Maker, Stacker of Wheat, Player with Railroads and Freight Handler to the Nation."

CHICAGO (ILLINOIS)

54. This military post was established as a camp in 1918, and named for the first secretary of war. During World War Two, it was used to protect the original copy of the Declaration of Independence. What Kentucky fort is also home to the nation's gold reserves?

(FORT) KNOX

55. Article Two of the United States Constitution sets up this branch of government. Duties held by members of this group include vetoing laws, negotiating foreign treaties, and serving as commander in chief of the armed forces. What branch of government does Barack Obama head?

EXECUTIVE (BRANCH)

56. Full name answer required. This military leader headed an expedition in 1778 that captured two Mississippi River settlements, Kaskaskia [kuhs-KAS-kee-uh] and Cahokia [kuh-HOH-kee-uh]. Earlier, he led a group of settlers who established an outpost on Corn Island opposite Beargrass Creek. Identify this older brother of one of the Lewis and Clark expedition's leaders.

GEORGE ROGERS CLARK

57. This state has the only legislature in the United States with one chamber. Elections to the legislature are non-partisan, meaning a candidate's political party does not appear on the ballot. What Midwestern state is known as the Cornhusker State?

NEBRASKA

58. This president was relatively unknown, and was called a "dark horse" candidate. Even so, he defeated the nationally known Henry Clay in 1844. Who was president during the Mexican War?

(JAMES KNOX) POLK

59. This Spanish explorer died in the Philippines during his exploration of the world. Even though he did not complete the voyage, which explorer is credited with being the first to sail around the world?

(FERDINAND) MAGELLAN

60. In 1779, there was one in Kentucky, but a year later there were three of these political units. Five years later, Nelson joined the group, and the next year so did Bourbon, Mercer, and Madison. What political units have grown to a total of 120 in the Commonwealth of Kentucky?

COUNTIES

61. This city in the American Southwest was originally founded by the Spanish, and served as a military and missionary headquarters. Following the Mexican War, it was the capital of the Territory of New Mexico. Name this city that gave its name to a well-known trail from Missouri to the Southwest.

SANTA FE

62. This basic economic problem occurs when there are not enough resources to satisfy people's wants. For example, a drought creates a situation where there is not enough food. What is the economic term for this problem?

SCARCITY

63. These are goods and services brought into one country from another. For example, many countries bring oil in from another country, because they cannot produce enough of it to meet the demand. What are the opposites of exports?

IMPORTS

64. These financial institutions can be commercial or investment, and are necessary for a healthy national economy. For many Americans, they provide checking and savings account services. What organizations include Wells Fargo, Capital One, and Fifth Third?

BANKS

65. This city was settled by the Spanish in 1565 along the northeast coast of present-day Florida. For most of the next two and a half centuries, it was the main northern outpost of the Spanish colonial empire. Identify this city, the oldest continuously inhabited city in the United States.

SAINT AUGUSTINE

66. In 1959, Fidel Castro became the dictator of this Caribbean island. For the next 55 years, the United States did not trade with this island nation. Identify the Caribbean nation with whom President Obama reestablished diplomatic ties in 2014.

CUBA

67. Washington, D.C. is home to our federal government. For what do the initials D.C. stand?

DISTRICT (OF) COLUMBIA

68. This trail stretches more than 5,000 miles across Alabama, Arkansas, Georgia, Illinois, Kentucky, Missouri, North Carolina, Oklahoma, and Tennessee. Four thousand Cherokee died of cold, hunger, and disease along it. What journey forced the Cherokee tribe to move to Oklahoma?

TRAIL OF TEARS (Accept: TRAIL WHERE THEY CRIED)

69. This community and surrounding area was devastated in November 2016 by a fire allegedly started by two teenage boys. Fourteen lives were lost, and nearly 200 people were treated at hospitals. Name this Tennessee town, famous for its tourism.

GATLINBURG (TENNESSEE)

70. This politician became much better known in July 2016 when he was named to a national ticket. From 2013 to 2017, he served as Indiana's governor. Who was elected vice-president in the November 2016 U.S. election?

(VICE-PRESIDENT MICHAEL RICHARD "MIKE") PENCE

71. A modern American landmark symbolizes the importance of this city as the Gateway to the West. From it, you can get a great view of the city, and of the Mississippi River. Name this city where you will also find the baseball Cardinals.

ST. LOUIS (MISSOURI)

72. This duty was first made mandatory in 1642 in Massachusetts. Fulfilling this duty helps young people become productive members of society. What must U.S. citizens do that assists them in developing the skills necessary to get jobs?

ATTEND SCHOOL (Accept equivalents, such as EDUCATION)

COLD WAR

74. This religious group expelled people who held differing beliefs, such as Roger Williams, from their colony. Governor John Winthrop led them under a charter from King Charles. Name this group, which established Boston in the Massachusetts Bay Colony.

PURITAN(S)

75. The waters of this Great Lake pass through the Straits of Mackinac [MAK-uh-naw] on their way into Lake Huron [HYOOR-uhn]. Green Bay, Milwaukee, and Chicago are ports along this lake. Name this Great Lake, the only one of the five that lies entirely within the United States.

(LAKE) MICHIGAN

76. When this product became scarce at Boonesborough, Daniel Boone led a party to the Blue Licks to get more. He and his party were captured by the Shawnee and taken to Detroit. What was this product necessary for preserving the meat they ate?

SALT

77. This American symbol is thought to have taken his name from a New York businessman. He appeared on Army recruiting posters during World War One. What symbol shows an older, bearded man dressed in red, white, and blue clothes?

UNCLE SAM

78. This English army officer and member of the English Parliament was responsible for founding a colony in America. He believed that America was a good place where people who were in debt in England could get a fresh start. Name this man who obtained a charter in 1732 for his colony, which he named Georgia.

(JAMES EDWARD) OGLETHORPE

79. His jersey number has been permanently retired by every Major League Baseball team. That number is 42. He broke baseball's color barrier when he signed to play for the Brooklyn Dodgers in 1947. Name this African-American baseball player.

(JACK ROOSEVELT "JACKIE") ROBINSON

80. This businessman and reality TV star announced in 2015 that he would seek the Republican nomination for president. He claimed he would "make America great again." Which candidate for president is famous for his show "The Apprentice" and the line "You're Fired"?

(DONALD) TRUMP

81. This president enlisted in the Army in 1806. He commanded troops in the War of 1812, and the Seminole Wars in Florida. What Louisville resident, a hero of the Mexican-American War, died sixteen months after taking office as president in 1849?

(ZACHARY) TAYLOR

82. He was the first sheriff of the newly established Kentucky County in December 1776. He helped start a settlement he called St. Asaph [AY-saf], which later became the site of Stanford, Kentucky. Name this frontiersman who gave his name to the county that has its county seat at Russellville.

(BENJAMIN) LOGAN

83. This local official's office is where marriage records are recorded in Kentucky. He is also responsible for supervising elections locally. What county official also issues license plates for automobiles?

(COUNTY) (COURT) CLERK

84. This politician became the Majority Leader of the United States Senate in 2015. He is also the longest-serving U.S. senator in his state's history. Name this senior senator from Kentucky.

(ADDISON MITCHELL "MITCH") MCCONNELL(, JR.)

85. This Frenchman was with the ill-fated settlers at Acadia where he spent three winters. He is the acknowledged founder of the city of Quebec, Canada. Identify this explorer who discovered the lake which forms the boundary between Vermont and New York, and bears his name.

(SAMUEL DE) CHAMPLAIN

86. This community organizer, civil-rights lawyer, and teacher was elected to the U.S. Senate in 2005. He is the author of *Dreams from My Father: A Story of Race and Inheritance* and *The Audacity of Hope: Thoughts on Reclaiming the American Dream*. Name the 44th president of the United States.

(BARACK HUSSEIN) OBAMA

87. This president was often called Old Hickory. He led American forces to victory over the British in the 1815 Battle of New Orleans. Name the seventh president of the United States.

(ANDREW) JACKSON

88. He was an English explorer, an early leader of the Jamestown Colony, and a mapmaker and prolific writer whose descriptions of the New World encouraged more settlers to come. He mapped the coast of New England for the members of the Plymouth Company, and was later captured by pirates, but escaped. Name this explorer who was saved from death at the hands of the Native Americans by the chief's daughter, Pocahontas.

(JOHN) SMITH

89. He was born in Virginia, and died in Washington, D.C., but Kentucky was his home. He named his farm Ashland after its many blue ash trees. Name this United States Senator from Kentucky who was often called the Great Compromiser.

(HENRY) CLAY

90. This Kentucky city was laid out by William Clark, the explorer. He named it for a Native American tribe. What home of the National Quilt Museum is the county seat of McCracken County?

PADUCAH

91. The best known segment of code, created by this man, is dot dot dot, dash dash dash, dot dot dot. He obtained support from Congress in 1843 for the first telegraph line in the United States. Name this American artist and inventor of the telegraph.

(SAMUEL F. B.) MORSE

92. This company was formed by Judge Richard Henderson to buy millions of acres from the Cherokee Indians. He planned to make a large fortune by selling those lands to settlers. What name did Henderson give this company, a name later adopted by a Lexington university?

TRANSYLVANIA

93. This religious leader was the pastor of the Salem church before being banished for his political views. He purchased land from the Narragansett, where he founded a haven for various religious groups. Name this founder of the colony of Rhode Island.

(ROGER) WILLIAMS

94. He served in Congress, was secretary of war, and was vice president during his career. He resigned the vice presidency in 1832 to enter the Senate. What South Carolina politician argued that a state could nullify a law passed by Congress?

(JOHN C.) CALHOUN

JOHN (FITZGERALD or "JACK") KENNEDY

114. This inventor developed the use of interchangeable parts. His 1793 invention revolutionized cotton production by removing the seeds from cotton fibers quickly and efficiently. Who invented the cotton gin?

(ELI) WHITNEY

115. This colonist learned silversmithing from his father, a Huguenot [HYOO-guh-not] refugee living in Boston. His engraving on copper plate of the Boston Massacre is well-known. Whose "midnight ride" on April 18, 1775, was immortalized in a poem?

(PAUL) REVERE

116. As a student at Crozer Theological Seminary, he became acquainted with Gandhi's idea of nonviolent protest. His first major civil rights action was the Montgomery Bus Boycott. What American pastor and civil rights activist gave the "I Have a Dream" speech?

(REV. MARTIN LUTHER) KING (JUNIOR)

117. This settler grew tobacco from seeds he obtained in the West Indies, which led to needed economic stability for the colony. His marriage helped to maintain peace with the Native Americans for a number of years. Name this Jamestown settler who married Pocahontas.

(JOHN) ROLFE

118. This vice president lost his bid to be president despite having a half million more popular votes than his opponent. His opponent in that 2000 election was George W. Bush. Name this man who received the Nobel Prize for Peace for his work to raise awareness about global warming.

(VICE-PRESIDENT ALBERT ARNOLD "AL") GORE (JR.)

119. This man led the first surveying party sent to Kentucky. His party erected the first log cabin built by Englishmen in Kentucky. Identify this doctor, whose party never reached the fertile lands of the Bluegrass.

(DR. THOMAS) WALKER

120. Though this document lists twenty-seven complaints against King George the Third, it is better known for the line, "We hold these truths to be self-evident, that all men are created equal". Housed in the National Archives in Washington, D.C., it features the large signature of John Hancock. Identify this document written by Thomas Jefferson and ratified on July 4, 1776.

(THE) DECLARATION OF INDEPENDENCE

121. This imaginary line marks the location where the sun is directly overhead when winter begins in Kentucky. However, it marks the summer solstice in South America. Which imaginary line lies approximately twenty-three and a half degrees south of the equator?

TROPIC OF CAPRICORN

122. The situation at this fort was one of the first crises facing President Lincoln soon after his inauguration. However, the commander, Major Robert Anderson of Kentucky, was forced to surrender before the fort could be resupplied. The shelling of what fort in Charleston harbor began the Civil War on April 12, 1861?

(FORT) SUMTER

123. Antislavery lawyers filed a lawsuit on behalf of this man in 1847, claiming that he was a free man. However, the Supreme Court ruled that as a black man, he was not a citizen. Identify this man.

(DRED) SCOTT

124. This responsibility of a citizen is one that few enjoy. However, unless most of us meet this responsibility, our governments will be unable to provide the services and protections we want. What is this responsibility that is particularly called to mind every April 15th?

TAXATION (Accept (PAY OUR) TAXES, equivalents)

125. This religious group began immigrating to America early in the 18th century, and mainly settled in eastern Pennsylvania. Humility, family, community, and separation from the world are the mainstays of their faith. Identify this group of people, whose crafts are generally sought by people outside their community.

AMISH

126. After performing Climb Every Mountain, he won the ninth season of The Voice. Identify this Kentuckian from Harlan.

(JORDAN) SMITH

127. This period in United States history began with the stock market crash of October 1929. Identify this time when millions of Americans were unemployed and nearly half of the country's banks failed.

GREAT DEPRESSION

128. Three main types of this economic principle are gross, operating, and net. If you made twenty dollars selling lemonade, but you spent five dollars making the lemonade stand, then this total would be fifteen dollars. What is the term for the money that a business makes after accounting for all other expenses?

PROFIT

129. She was a clerk in the Patent Office when she started gathering supplies for the Union army at the start of the Civil War. In 1862, she became a nurse, caring for and comforting wounded and dying soldiers, and helping doctors on the battlefield. Who founded the American Red Cross?

(CLARA) BARTON

130. This two-word phrase was much talked about after the presidential elections of 1876, 1888, 2000, and 2016. In 1888, the difference between the candidates was about 100,000 votes, but in 2016 it was more than three million. What did George W. Bush and Donald Trump lose, despite winning the electoral vote and therefore the presidency?

POPULAR VOTE (Accept: TOTAL VOTE)

131. This statement was first published in The Youth's Companion in 1892. In 1954, Congress, at the urging of President Eisenhower, added the words "under God." What is this statement that affirms a person's belief in the ideals of the United States?

PLEDGE OF ALLEGIANCE

132. The first version of this statement was written in 1892 by the minister Francis Bellamy. In 1954, during the Cold War, Congress tried to combat communism by adding the words "under God" to it. What is this national oath recited by many schoolchildren each day, which describes the country as "indivisible" and representing "liberty and justice for all"?

(THE) PLEDGE (OF ALLEGIANCE OF THE UNITED STATES)

133. First and last name answer required. He initially gained national attention for investigating Jimmy Hoffa over the corrupt practices of the International Brotherhood of Teamsters. In 1968, while campaigning in California for the Democratic nomination for president, he was shot by Sirhan Sirhan and died the following day. Name this former U.S. Attorney General and Senator from New York, the younger brother of the 35th President of the United States.

ROBERT (FRANCIS) KENNEDY (Accept: BOBBY KENNEDY)

134. She was President Bill Clinton's deputy assistant on the Domestic Policy Council. In 2009, she became the first woman to be named U.S. solicitor general. What New York native was named a Supreme Court justice in 2010?

(ELENA) KAGAN [KAY-gun]

135. In 2017, this corporation announced that it would begin selling sports hijabs [hih-JAHBS] for Muslim female athletes, and in 2018 served as the official uniform supplier for the NBA. In 2018, it was revealed that the former NFL quarterback Colin Kaepernick [KAP-er-nick] would be its new face for advertising. Identify this company known for selling athletic footwear, famous for its "Swoosh" logo and the slogan "Just Do It."

NIKE (INCORPORATED)

136. One man who held this title was forced to resign after the Watergate scandal, while only two men who have served in this role have been impeached. In addition to overseeing the nation's armed

forces as the commander-in-chief, someone who has been elected to this position can appoint Cabinet members, and has the power to veto a bill. What name do we give the head of the executive branch of the United States government?

PRESIDENT (OF THE UNITED STATES)

137. In English history, this term referred to a man entitled to bear arms, but not a member of the nobility. In an economic sense, he was a man who could afford to live without doing manual labor. What is this title given to a man who lived off of the labor of others, or as a landlord?

GENTLEMAN (Accept: LANDED GENTRY)

138. In Kentucky, this title has been held by John Breathitt, Ruby Laffoon, and Charles A. Wickliffe. In December 2015, the person who assumed this title in Kentucky was named Matt Bevin. What title is given to the head of the government of a state?

GOVERNOR

139. This four-letter economic security can be secured, convertible, or bearer. In each case, the issuer must pay the holder a certain amount of money. What type of security is also sold by the federal government in a savings variety?

BOND

140. This geologic formation proved to be of great importance to the communities that developed nearby along the Ohio River. In early Kentucky history, it was responsible for the growth of the city of Louisville. Name this formation that is now an Indiana State Park on the Ohio River, featuring an abundance of fossils.

FALLS OF THE OHIO

141. This man is often called the "father of modern economics" and he published The Theory of Moral Sentiments in 1759. In his most famous work, he advocated for a free market characterized by the division of labor and governed by an "invisible hand". Name this Scottish economist who wrote The Wealth of Nations.

(ADAM) SMITH

142. This river has its source in southwestern Colorado, and passes through forests of spruce, fir, and aspen in its early reaches. In its lower reaches, however, its surrounding vegetation includes cactus, yucca, and other desert plants. Name this river that forms the border between Texas and Mexico.

RIO GRANDE (RIVER)

143. This type of financial plan is often thought of in terms of governments, but businesses and families can have one too. In Kentucky, the Constitution requires the one for the Commonwealth be balanced. Identify this financial planning tool.

BUDGET

144. These colonists wanted to rid the Church of England of Roman Catholic influences. In North America, they established the Massachusetts Bay Colony, led by Governor John Winthrop. Name this group that expelled those who held differing beliefs.

PURITANS

145. In 2016, multiple candidates carried out this process as they participated in presidential debates and traveled across the nation giving speeches at rallies. In schools, students running for class president may do this by hanging up posters and informing peers about why they should be elected. Give the name for the process in which candidates persuade voters to elect them to a certain position.

(POLITICAL) CAMPAIGN(ING)

146. Above this imaginary line, the sun is not visible on December 21st. In the fall and winter months, the northern lights are frequently visible here. Identify this imaginary line that lies sixty-six and a half degrees north of the Equator.

ARCTIC CIRCLE

147. This economic event began as an ordinary recession, but worsened near the last part of 1929. In the middle of this event, Franklin Roosevelt was elected for his first term in office. What do we call this period of time, the longest and most severe event of its kind experienced in America?

(THE) GREAT DEPRESSION

148. This governmental body developed from the Privy Council of England. In the U.S., its first members included Thomas Jefferson and Alexander Hamilton. What group advises the president, and oversees departments such as State and Defense?

CABINET

149. Two examples of this eight-letter official form of money are the Indian rupee and the Japanese yen. In the United Kingdom, this monetary unit is the pound, and in many other European countries, people use the euro. What is this unit of exchange used to purchase goods that, in the United States, is represented by the dollar?

CURRENCY

150. This process usually requires a certain period of residence within a country. In the United States it includes passing an English and civics test. What is this process whereby a foreigner may become a United States citizen?

NATURALIZATION

151. This person legally belongs to a country with the rights and protection of that country. In the United States, a person becomes this through birth or naturalization. What term comes from the Latin "civis"?

CITIZEN

152. This term is used to identify someone within a country who is foreign-born, not a citizen. In the United States, this person could be certified and granted a "green card." What is this term, also used in science fiction stories to identify beings from outer space?

ALIEN(S)

153. Since the late 1990s, dogs have been regularly elected to this position in Rabbit Hash, Kentucky. Individuals in this role can declare local emergencies and often greet important visitors, participate in public events, and preside over city council meetings. Identify this term for an official who serves as the head of a city.

MAYOR

154. This fast sailing ship of the nineteenth century was admired for its beauty, grace, and speed. Inspired by a similar ship, built in Baltimore, it carried a large spread of sails on three tall masts. What kind of ship was this, that set speed records prior to the Civil War?

CLIPPER (SHIP)

155. This type of seasonal human movement does not involve a permanent change of residence. Instead, groups of people move from one area to another periodically. What type of movement is often seen among tribes that own herds of sheep or goats?

NOMADISM (Accept word forms)

156. This jury does not vote to say whether defendants are guilty or innocent. Instead, nine of the 12 jurors must decide if there is enough evidence to think someone has committed a crime. What jury in Kentucky issues indictments?

GRAND (JURY)

157. This Kentucky region includes the Barrens, an area that settlers continually burned to make grasslands for deer and buffalo. It adjoins all other Kentucky regions except the Bluegrass. Which region derives its name from the member of the mint family that grows abundantly there?

PENNYROYAL (Accept: PENNYRILE)

158. This federal agency of the U.S. Public Health Service has its headquarters in Atlanta. It administers national programs such as seasonal flu vaccinations to prevent and control communicable diseases. What is the nation's health protection agency?

CENTERS FOR DISEASE CONTROL (AND PREVENTION) (Accept: CDC)

159. This New England landmark lends its name to an American chicken breed. It allegedly marks the spot where William Bradford and his fellow colonists stepped onto American soil in 1620. What is this stone located in southeastern Massachusetts?

PLYMOUTH ROCK

160. This machine strengthened the institution of slavery in the South, because planters were producing more crops and required more workers. It allowed Southern farmers to spend less time removing seeds from its namesake soft white fiber. What is this machine invented in 1794 by Eli Whitney?

COTTON GIN

161. This government agency was established to control floods and improve navigation along an important river in the eastern United States. It also provided hydroelectric power, bringing electricity to rural families living along the Tennessee River. What is this authority that continues to manage all the dams in this region?

TENNESSEE VALLEY (AUTHORITY) (Accept: T.V.A.)

162. This amendment, part of the Bill of Rights, addressed the principle that "every man's house is his castle." It also provides residents protection against unreasonable searches and seizures. Which amendment declares that police must have probable cause and a warrant to search your property?

4(TH AMENDMENT)

163. This document declares that all men have "certain unalienable Rights." It also states that "all men are created equal." What important American document declares that these rights include "Life, Liberty, and the Pursuit of Happiness"?

DECLARATION OF INDEPENDENCE

164. This local government official's office is responsible for registering your automobile. It also will register your marriage license. Which official is responsible for providing election precincts with workers?

COUNTY (COURT) CLERK

165. This geographical region of Kentucky is separated into two parts by a river. It became part of the state following a treaty with the Chickasaw people in 1818. What is this far western region of the state that is bounded by the Ohio River, the Mississippi River, and the impounded Tennessee River?

(JACKSON or THE) PURCHASE

166. This term for the English Separatists did not come into use until the early 1800s. It became popular when it was found in a manuscript written by William Bradford. What name is given to the Separatists who landed at Plymouth in 1620?

PILGRIM(S) (Accept: PILGRIM FATHERS)

167. An aircraft using this energy source flew around the world in 2016. It became the first one to do so using only what type of renewable energy?

SOLAR (ENERGY or POWER) (Accept (THE) SUN)

168. This motto first appeared on a two-cent coin issued by the U.S. Mint in 1864. It became the national motto of the United States on July 30, 1956. What four-word motto is used on U.S. coins?

IN GOD WE TRUST

169. Following this conflict, the United States gained control of Puerto Rico and the Philippines. It began following an explosion aboard the U.S. battleship Maine in Havana harbor. By what name do we know the war that saw Teddy Roosevelt charge up San Juan Hill?

SPANISH-AMERICAN (WAR)

170. This was the primary route for the settlement of backcountry of the southern British colonies. It began in Pennsylvania, entered the Shenandoah Valley, and continued south by way of the Great Warriors' Trail. What was this route that also carried the produce of southern farms to northern cities?

GREAT (PHILADELPHIA) WAGON ROAD (Do Not Accept: GREAT WARRIOR'S TRAIL)

171. This old Iroquois trail was used by German and Scotch-Irish settlers to reach the backcountry along the eastern slopes of the Appalachian Mountains. It began near Philadelphia, and traveled through the Shenandoah Valley into what became North Carolina. Identify this road which, despite its name, wasn't easily passable in a certain type of vehicle.

GREAT WAGON ROAD (Do Not Accept: GREAT WARRIOR'S TRAIL)

172. This legislative body's membership is influenced each decade by the results of the Census. It began with around 60 members, and today has a total of 435. What is this body whose members are elected every two years from their respective states?

(UNITED STATES) HOUSE (OF REPRESENTATIVES)

173. A series of locks make this Kentucky border river navigable. It begins at Louisa in Lawrence County, and flows generally northward to the Ohio River. Name this river that forms part of the boundary between Kentucky and West Virginia.

BIG SANDY (RIVER)

174. This early political party was led by Alexander Hamilton and John Adams. It called for a strong central government. Name this party that was opposed by Thomas Jefferson and his Republican Party, and had namesake "Papers" written by Hamilton, Adams, and others.

FEDERALIST (PARTY)

175. This purchase was delayed by the Civil War. It came about because Russia had become more interested in extending its power in Asia. What purchase did the United States make in 1867 for \$7.2 million?

ALASKA (PURCHASE)

176. President Wilson was a leading advocate of this international organization. It came into being following World War One. Name this organization for international cooperation that was replaced by the United Nations.

LEAGUE OF NATIONS

177. This type of human movement does not include tourism or migrant labor, which are temporary. It can be caused by environmental changes, political turmoil, or warfare. What type of movement involves large numbers of people leaving one area for permanent residence elsewhere?

MIGRATION (Accept word forms)

178. In economics, this two-word phrase refers to the value of the next best alternative. It comes into play when you have the choice of buying one of two items. What term is defined as the value of the item you do not choose?

OPPORTUNITY COST

179. This navigational instrument was used by sailors to determine latitude and longitude at sea. It consisted of a sixty-degree arc of a circle marked off in degrees, with a moveable radial arm pivoted at the center of the circle. What is this instrument that uses a telescope to find the number of degrees between the horizon and a particular star?

SEXTANT

180. This Kentucky region has calcium-rich soil which imparts the mineral through the grass to the horses bred there. It contains Kentucky's best agricultural land. Name this central Kentucky region that takes its name from the grass that grows there.

BLUEGRASS (REGION)

181. This important document has been changed twenty-seven times. It contains seven articles, including one that tells how to change it. What is this document that we consider "the law of the land"?

(UNITED STATES) CONSTITUTION

182. This U.S. region has extensive fossil deposits, including the remains of camels and saber-toothed tigers. It covers about 2,000 square miles of southwestern South Dakota. What is this rugged landscape, named for its extreme temperatures and lack of water and vegetation?

BADLANDS

183. This is an English-based vernacular, sometimes known as Geechee, spoken mainly by African-Americans living on the coast of South Carolina and Georgia. It developed in the rice fields during the eighteenth century as a combining of English and the languages of African slaves. What is this language?

GULLAH (Accept SEA ISLAND CREOLE)

184. This kind of map, within the limits of scale, shows the location and shape of both natural and man-made features. It displays relief, and hydrographic features, as well as towns, roads, railroads, and bridges. What kind of map uses the closeness of lines to denote the steepness of elevation?

TOPOGRAPHICAL (MAP) (Accept: TOPOGRAPHIC)

185. This river rises in the Rocky Mountains and ends at the Gulf of California. It dissects a plateau of the same name. Name the river that flows through the Grand Canyon.

COLORADO (RIVER)

186. This region of Kentucky is dotted with rounded hills that are remnants of escarpments. It embraces the Bluegrass region on its inner side. Identify this region, oddly shaped like a horseshoe, whose ends touch the Ohio River.

(THE) KNOBS

187. This river borders Ballard, Boone, and Jefferson counties. It empties into the Mississippi in west Kentucky. What river borders Kentucky on the north?

OHIO (RIVER)

188. This river is formed where three forks come together near Beattyville in Lee County. It empties into the Ohio River at Carrollton. Name this river that flows through the Bluegrass region of Kentucky.

KENTUCKY (RIVER)

189. This structure was built to enable shipping from Pittsburgh to New Orleans without having to portage around barriers. It enabled steamboats to bypass the Falls of the Ohio. What canal became part of the McAlpine Locks and Dam in 1962?

(LOUISVILLE AND) PORTLAND (CANAL)

190. This proclamation tried to prevent colonists from settling on Native American land. It established the land west of the Appalachian Mountains as Indian territory. What proclamation was generally ignored by people intent on moving westward?

PROCLAMATION OF 1763

191. This geographic region lies between the Appalachian Mountains and the Atlantic Coastal Plain. It extends from New Jersey to Alabama. What is this relatively low rolling plateau called?

(THE) PIEDMONT

192. This company is considered to be one of the "Big Four" of technology, alongside Facebook, Amazon, and Google. It faced controversy upon revealing that one of its newest cellular devices would have facial recognition, although many users enjoyed that Face ID feature with the new Animojis [ani-moe-jeez]. What is this company that, since 2010, has released the iPad and multiple generations of the iPhone?

APPLE (INCORPORATED)

193. This landmark is officially called the Jefferson National Expansion Memorial, and celebrates the accomplishments of early pioneers. It features a tram system to its top and the Museum of Westward Expansion beneath it. Identify this landmark in St. Louis, Missouri.

(THE) GATEWAY ARCH

194. This river is formed by the junction of the Holston and French Broad rivers. It flows into the Ohio River near Paducah. What river was dammed in 1944 to form Kentucky Lake?

TENNESSEE (RIVER)

195. This river is the longest one that is entirely in Kentucky. It flows past Mammoth Cave, then into the Ohio River near Evansville, Indiana. What river flows past Morgantown, Brownsville, and Greensburg?

GREEN (RIVER)

196. This noble experiment ended in failure in 1933 when the 21st amendment was passed. It had begun in 1919 with the passage of the 18th amendment. By what name do we know the era when it was illegal in the United States to create or sell alcoholic beverages?

PROHIBITION

197. This political party was formed in 1854, and nominated John C. Fremont for president in 1856. It has sometimes been called the Party of Lincoln. What political party gained control of the Kentucky legislature in the 2016 election?

REPUBLICAN (PARTY) (Accept: GOP or GRAND OLD PARTY)

198. This group's official designation was the First Volunteer Cavalry. It included college athletes, policemen, cowboys, and miners. Identify this group commanded by Theodore Roosevelt in the Spanish-American War.

ROUGH RIDERS

199. This rate is released each month by the U.S. Department of Labor. It includes civilians who are actively trying to find a job. What rate shows the percentage of people who cannot find a job?

UNEMPLOYMENT (RATE)

200. This California county lies on a broad coastal plain between the mountains and the Pacific Ocean. It includes the nation's second largest city by population, and two Channel Islands, Santa Catalina and San Clemente. What county includes Beverly Hills, Pasadena, and Long Beach, and is named for its county seat, which also includes Hollywood?

LOS ANGELES (COUNTY)

201. This landmark was the world's tallest manmade structure when it was finished in 1884. It is a 555-foot marble obelisk. Name this monument to the first U.S. president.

WASHINGTON (MONUMENT)

202. These five words precede "and laws of the United States of America" in the oath a naturalized citizen takes. It is a basic responsibility of all American citizens. What five words describe a citizen's responsibility toward the supreme law of the U.S.?

SUPPORT AND DEFEND THE CONSTITUTION

203. This economic contest can be perfect or imperfect. It is a contest to outsell others, and has been common among merchants since ancient times. What is the contest between rival businesses called?

COMPETITION (Accept word forms)

204. To motivate you to buy a car, dealers often set this value at zero. It is a way of calculating an additional cost as a percentage of the sum borrowed. When you take out a loan, you almost always have to pay back the amount you borrowed, plus what extra charge?

INTEREST (RATE)

205. This inland city founded in 1821 is a hub of road, rail, and air transportation, although it is not located on navigable water. It is also a center for amateur sports, and serves as the home of the main offices of the NCAA. What city, about a hundred miles north of Louisville, is the capital of Indiana?

INDIANAPOLIS

206. This type of map is usually updated every few hours. It is based on such factors as barometric [bear-uh-MET-rik] pressure, cloud cover, and wind speed and direction. What kind of map do you see frequently on television news programs?

WEATHER (MAP)

207. This geologic region covers parts of Utah, Colorado, New Mexico, and Arizona. It is bounded by the Rocky Mountains, the Great Basin, and the Sonoran Desert. Name this highland that contains the Grand Canyon.

COLORADO PLATEAU

208. This area is a popular tourist attraction in northeastern New York state. It is composed of hundreds of peaks and foothills, covered with spruce, hemlock, and pine forests. Identify this region home to Lake Placid and Fort Ticonderoga [tie-kon-duh-ROH-guh].

ADIRONDACKS [ad-uh-RON-dakz] (Accept: ADIRONDACK MOUNTAINS)

209. Many states deny this right to citizens who have been convicted of a felony. It is frequently exercised on the first Tuesday after the first Monday in November. What is this right to have a voice in selecting who represents us called?

(THE RIGHT TO) VOTE (Accept: VOTING, SUFFRAGE, ENFRANCHISEMENT)

210. This memorial in Arlington National Cemetery includes sculptures of Greek figures representing Peace, Victory, and Valor. It is guarded 24 hours a day, 365 days a year, in any weather. What site is inscribed with the words, "Here rests in honored glory an American soldier known but to God"?

(THE) TOMB OF THE UNKNOWN SOLDIER (Accept: TOMB OF THE UNKNOWNNS)

211. This state is the home of three major iron ore ranges that produced much of the iron that fueled America's economy in the 1900s. It is home of the 3M Company, a company that produces adhesive tape and consumer-electronics components. Name this state that includes the cities of Duluth and Saint Paul.

MINNESOTA

212. In economics, this term refers to something that is not readily available. It is in short supply, causing its price to rise. What is this term for something whose supply is insufficient to meet its demand?

SCARCITY (Accept: SCARCE)

213. This natural wonder and tourist attraction is sometimes called the "Niagara of the South." It is in Southern Kentucky. Name this place where, on certain nights, you can see a moonbow.

CUMBERLAND (FALLS)

214. This memorial took fourteen years to finish, from 1927 to 1941. It is in the Black Hills, about 25 miles from Rapid City, South Dakota. What memorial features the faces of Washington, Jefferson, Lincoln, and Teddy Roosevelt?

MOUNT RUSHMORE

215. This kind of tax is said to help protect a nation's own industries. It is levied on imports, and generally causes prices to rise. What do we call such a tax that may result in other nations imposing the same kind of tax?

TARIFF (Accept: CUSTOMS, DUTIES)

216. The summit of this mountain is fairly level, and receives thousands of tourists each year. It is located near Colorado Springs, Colorado. Name this mountain peak that is accessible by road or cog railway, and is named for a famous western explorer.

PIKES PEAK

217. This Kentucky geological formation is 65 feet high, and spans a distance of 78 feet. It is located near the Red River Gorge area of the Daniel Boone National Forest. Name this formation, considered by many the most visited arch in Kentucky.

NATURAL BRIDGE

218. This natural pass was cut through the Cumberland Plateau in the eastern United States. It is located near where the states of Kentucky, Virginia, and Tennessee meet. Name this pass that was discovered by Thomas Walker in 1750, and was later the pathway of the Wilderness Road.

CUMBERLAND GAP

219. This city was founded by the Spanish, and named for a Roman Catholic bishop. It is located on the Atlantic coast of northern Florida. Name this city, the oldest continuously settled city in the United States.

ST. AUGUSTINE

220. This birthplace of Daniel Carter Beard, a founder of the Boy Scouts of America, is the fifth largest city by population in Kentucky. It is located where the Licking River joins the Ohio River. What county seat of Kenton County is across the Ohio from Cincinnati?

COVINGTON

221. This city is the northern hub of the metropolitan area that includes Washington, D.C. It is Maryland's largest city and economic center. What city is the home of professional baseball and football with the Orioles and Ravens?

BALTIMORE

222. This Kentucky region touches all other regions except the Bluegrass. It is named for a plant of the mint family that is abundant there. Name this region that includes Bowling Green, Glasgow and Madisonville.

PENNYRILE (GEOGRAPHIC REGION) (Accept: PENNYROYAL or MISSISSIPPI PLATEAU)

223. This forest includes over 250 acres of woods that have not undergone any manmade changes in 150 years. It is one of only two such areas in the state, where such biodiversity of plants and animals abound. Identify this virgin forest in Letcher County.

LILLEY CORNETT (WOODS)

224. This North American lake exists within an arid environment. It is one of the most saline inland bodies of water on earth. Name this lake in Utah.

(GREAT) SALT (LAKE)

225. This institution was founded in 1798 as the Jefferson Seminary. It is one of the oldest urban universities in the United States. Name this university, whose alumni include football great Johnny Unitas and basketball great Darrell Griffith.

(UNIVERSITY OF) LOUISVILLE (Accept: U OF L)

226. This type of music became popular after World War Two, but did not get its name until later. It is played by bands that nearly always include a mandolin, banjo, and acoustic guitar. What style of music was popularized by Bill Monroe?

BLUEGRASS (MUSIC)

227. This publication began in 1889 and has expanded to include namesake Asian and European versions. It is published by Dow Jones & Company and is known for its focus on business and the economy. Identify this U.S. newspaper that takes its name from a famous street in the Financial District of New York City.

WALL STREET JOURNAL

228. This map projection was introduced about 450 years ago. It is still widely used for navigation charts today. Identify this projection whose meridians are parallel lines on the chart.

MERCATOR (PROJECTION)

229. This geologic feature lies within the Daniel Boone National Forest, adjacent to the Red River Gorge. It is the central feature of one of Kentucky's first four state parks. What is the common name for this sandstone arch?

(THE) NATURAL BRIDGE

230. This mountain peak is located at the eastern border of Sequoia National Park in California. It is the highest mountain peak in the Sierra Nevada mountains. Name this peak that is also the highest in the lower forty-eight states.

(MOUNT) WHITNEY

231. Early flatboat men called this place Yellow Banks, from the color of the clay along its high riverbanks. It is the home of Kentucky Wesleyan College, and is the fourth largest city by population in Kentucky. Name the county seat of Daviess County.

OWENSBORO

232. This central Florida city's growth was boosted in the 1950s with the development of nearby Cape Canaveral. It is the home of Sea World, and also hosts the Wizarding World of Harry Potter. Name this city that is home of Walt Disney World.

ORLANDO

233. This term refers to a free market or enterprise economy. It is the kind of economic system you have likely known all your life. Name the economic system in which most of the means of production are privately owned, like in America.

CAPITALISM

234. This river is formed where the Jefferson, Madison, and Gallatin Rivers come together in the Rocky Mountains. It is the longest tributary of the Mississippi River. Name this river that was the pathway for much of the Lewis and Clark expedition.

MISSOURI (RIVER)

235. This amendment to our United States Constitution passed Congress in 1971, and was ratified by the states less than four months later. It is the most recent amendment to address voting rights. Which amendment lowered the voting age to eighteen?

26(TH AMENDMENT)

236. This economic event began in the United States, but affected countries throughout the world. It lasted for a decade, finally ending with the beginning of World War Two. What economic downturn that began in 1929 was the worst such event experienced by the industrialized world?

(THE GREAT) DEPRESSION

237. This constitutional right was first given to white men over 21 who met property requirements. It later expanded to include all white men over 21, black men, women, and people over age 18. By what right do U.S. citizens elect public officials?

(RIGHT TO) VOTE (ACCEPT: SUFFRAGE)

238. This was the first of the great medieval trading empires of West Africa. It lay between the Sahara to the north and the Senegal [sey-ney-GAL] and Niger [NAHY-jer] rivers to the south. Identify this kingdom, whose people handled the exchange of northern salt for southern gold and ivory.

GHANA (Accept: WAGADU [wah-gah-du])

239. This portion of a historical document was added during the final days of the convention where it was drafted, though it appears at the beginning of the work. It lists six overall purposes for the document, including to "insure domestic tranquility" and "promote the general welfare", and it concludes with the intent to "ordain and establish" this law for the country. Give the name for the opening statement of the U.S. Constitution, beginning with the three words, "We the People".

PREAMBLE (TO THE UNITED STATES CONSTITUTION)

240. This international organization was established following World War One, and had its headquarters in Geneva, Switzerland. It lost much of its effectiveness when the United States Congress failed to

ratify the Treaty of Versailles [ver-SAHY]. What was this organization that was replaced by the United Nations following World War Two?

(THE) LEAGUE OF NATIONS

241. Through this right, citizens choose their government leaders and express their opinions on public issues. It may be done using a machine or a paper ballot. What right requires a person to be at least 18 years old and a legal resident of the U.S.?

(RIGHT TO) VOTE (Accept word forms)

242. This North American Christian group grew out of the Mennonite movement. It originated in the late seventeenth century among followers of Jakob Ammann. What is this group, whose mainstays are humility, family, community, and separation from the world?

(THE) AMISH

243. Part of this Kentucky city, located on the Kentucky River, was once owned by James Wilkinson. It outbid several other communities to become the seat of state government. Name this city whose name likely came from an incident when a pioneer named Stephen Frank was killed by Native Americans at a nearby ford of the river.

FRANKFORT

244. This town was established as Fort Rosalie by a Frenchman in 1716, and survived a massacre thirteen years later by the Native American tribe that gives it its name. It passed from France to England in 1763, and then was captured by the Spanish in 1779, before the Americans took possession and made it the capital of the Mississippi Territory. Identify this Mississippi town that sat at the southern end of an overland trail from Nashville, now a scenic and historic roadway.

NATCHEZ

245. Benjamin Franklin established this department, the second oldest agency of the U. S. government. It processes passport applications, and provides mail processing and delivery services to individuals and businesses. What is this agency that is closed on federal holidays?

(U.S.) POST OFFICE (ACCEPT:(U.S.) POSTAL SERVICE (NOT: MAIL))

246. This amendment to our Constitution protects us from "double jeopardy" - being tried twice for the same crime. It provides for what we call "due process." Which amendment guarantees that we cannot be forced to testify against ourselves?

5(TH AMENDMENT)

247. In 1782, Congress proposed the use of this Latin motto for use on the Great Seal of the United States. It refers to the fact that the United States became a single unified nation as the result of the thirteen smaller colonies joining together. What Latin phrase means "out of many, one"?

E PLURIBUS UNUM

248. This two-word phrase names a protection you have under the Fifth Amendment. It refers to the protection you have to not be tried twice for the same crime. What is this term for this protection against being tried a second time for a crime you've been acquitted of?

DOUBLE JEOPARDY

249. This is the fifth-longest river of North America. It rises as a mountain stream in southwestern Colorado, and flows into the Gulf of Mexico. Identify this river that forms the border between Texas and Mexico.

RIO GRANDE [GRAHN-day or GRAND]

250. This mountainous ridge extends 125 miles across southeastern Kentucky along the Virginia border. It rises to Big Black Mountain on the Kentucky-Virginia border. What ridge, home to Kentucky's oldest state park, is found near Pineville?

PINE MOUNTAIN

251. This geographic region of the eastern United States extends from New Jersey to Alabama. It separates the Appalachian Mountains from the Atlantic Coastal Plain. What do we call this low rolling plateau that is cut by many rivers as they make their way to the ocean?

PIEDMONT

252. This colony was chartered in 1732, when James Oglethorpe pictured it as a fresh start for English debtors. It served as a barrier between French and Spanish North American settlements and the other English colonies. Identify this youngest and southernmost colony which, as a state, has its capital at Atlanta.

GEORGIA

253. This geographical feature is located east of Harlan and south of Hazard. It sits by the Kentucky-Virginia border as part of the Cumberland Mountains. Name this mountain, the highest point in Kentucky.

(BIG) BLACK (MOUNTAIN)

254. This suspension bridge is located in central California. It spans the opening of the San Francisco Bay. What is the name of this national landmark?

GOLDEN GATE (BRIDGE)

255. This amendment is the one of which advocates of states' rights base their beliefs. It states that all powers not given to the federal government remain in the hands of the states or the people. Which amendment is the last in the Bill of Rights?

10TH (AMENDMENT) (Accept: (AMENDMENT) TEN)

256. This movie won the 2016 Golden Globe Award for best-animated film. It tells the story of how a young girl must adapt when her family moves from Minnesota to San Francisco. In what Disney Pixar movie do Joy, Fear, Anger, Disgust, and Sadness run wild in Riley's mind?

INSIDE OUT

257. Lieutenant General John Pemberton's defeat at this battle fulfilled the second part of the Union Army strategy known as the Anaconda Plan. It took place in the summer of 1863 when Union troops

besieged this southern city. Which Civil War battle enabled General Ulysses S. Grant to gain control of the Mississippi River?

(SIEGE OF) VICKSBURG (Accept: BATTLE OF VICKSBURG)

258. This type of farming has long been used in areas where irrigation is needed. It uses furrows, rows of crops, and wheel tracks on sloped to retain water. What type of farming tills sloped land along consistent levels to conserve water?

CONTOUR (FARMING) (Accept: CONTOUR PLOWING)

259. This kind of financial transaction involves the promise to pay at a future time. It usually includes payment of interest as well as the principal amount. What do we call such a transaction, often carried on between banks and their customers?

CREDIT (Accept: LOAN)

260. This transportation company began building its pathway at Ninth and Broadway in Louisville in 1853. It was one of the only railroads to operate between the North and South during the Civil War. What railroad was initially chartered to extend from Louisville to the Tennessee line?

LOUISVILLE AND NASHVILLE (RAILROAD) (Accept: L&N)

261. This style of music had its roots in the nineteenth century camp meetings attended by both whites and their black slaves. It was a combination of the work song with its call-and-respond pattern to the religious hymns of the time. What do we call this music style that became popular during the revivals and camp meetings of that time?

SPIRITUAL(S) (Do Not Accept: GOSPEL)

262. This major engagement resulted from an attempt to convince European powers to support the Confederacy. It was a crushing defeat for the forces led by General Robert E. Lee. Name the 1863 Pennsylvania battle that was followed by a speech dedicating a cemetery for those who died there.

(BATTLE OF) GETTYSBURG

263. This act was passed to help pay for the French and Indian War. It was a tax on legal papers, newspapers, pamphlets, almanacs, and even dice. What 1765 act was met with protests and refusal to pay in the American colonies?

STAMP (ACT)

264. Until it was replaced in 1956, this was the unofficial motto of the United States. It was adopted by an Act of Congress in 1782, and has been used on coins and paper money almost ever since. What Latin phrase translates as "from many, one"?

E PLURIBUS UNUM [e PLOO-ri-boos OO-noom]

265. This American landmark was constructed as a part of the Boulder Canyon Project beginning in 1928. It was built on the Colorado River, and its completion resulted in the country's largest reservoir, Lake Mead. Identify this structure located on the border between Arizona and Nevada, named after the 31st president of the United States.

HOOVER DAM

266. This agricultural catastrophe in the 1840s was largely responsible for the immigration of many Irish to America. It was caused by a disease that destroyed both the leaves and roots of an important food crop. What was this catastrophe that destroyed Ireland's main food crop?

(THE GREAT) POTATO FAMINE

267. This lake is impounded by the largest dam in the Tennessee Valley Authority system. It was created in 1944 when the Tennessee River was impounded by the Kentucky Dam. Name this man-made lake that lies west of the Land Between the Lakes.

KENTUCKY (LAKE)

268. This international conflict began in 1950 on an Asian peninsula. It was fought by forces under the flag of the United Nations against communist forces. What do we call this conflict that featured the 38th parallel?

(THE) KOREAN (WAR) (Accept: KOREAN POLICE ACTION or KOREAN CONFLICT)

269. Frederic Bartholdi [fray-day-REEK bar-tawl-DEE] designed it. It was given to the United States by France. What statue sits in New York Harbor?

(THE) (STATUE OF) LIBERTY (ACCEPT: LIBERTY ENLIGHTENING THE WORLD)

270. This area of high earthquake risk runs from northern Arkansas and Tennessee to southern Missouri and Kentucky. It was here that a series of three large quakes occurred between December 1811 and February 1812. By what name do we know this region of deep-seated faults in the Earth's crust?

NEW MADRID (FAULT) (Accept: NEW MADRID SEISMIC ZONE or NEW MADRID RIFT)

271. This conflict took place during the presidential term of James K. Polk. It was largely fought over where the border lay, at the Rio Grande or the Nueces [noo-ey-suhs] River. By what name do we call this war that began with the annexation of Texas in 1845?

MEXICAN (WAR) (Accept: MEXICAN-AMERICAN (WAR))

272. This is a vernacular language developed on the sugarcane plantations of the French colonies of the Mississippi Delta. It was later influenced by a similar language spoken by slaves brought there from Haiti. What is this language, named for people of European or African descent who were born in the West Indies or French or Spanish America?

(LOUISIANA) CREOLE

273. This town was established as Fort Rosalie by the French governor of Louisiana, but the Spanish captured and held it until 1798. It was later named for the Indians who lived in the area. Which Mississippi town was the southern terminal of its namesake overland trail from Nashville?

NATCHEZ [NACH-iz]

274. Two Englishmen, Charles and Jeremiah, charted this line in the 1760s to establish the border between two colonies. It was meant to settle the dispute between the Penns and the Calverts over

their conflicting claims. What was this line, that later settled the border between Pennsylvania and Maryland, and is considered to separate the North from the South?

MASON (AND) DIXON (LINE)

275. This stronghold was constructed by George Rogers Clark in 1780 to control access to the Ohio River. It was occupied for two years during Clark's Illinois Campaign. Name this fort, that was in what is now Ballard County, near where the Ohio and Mississippi meet.

(FORT) JEFFERSON (Accept: CLARKSVILLE)

276. This two-word phrase refers to a circle divided into 32 points, numbered clockwise from north. It was one of the most striking parts of portolano [por-toh-LAH-noh] maps. Identify this map part that shows not only directions from various points, but also the shortest sailing routes.

COMPASS ROSE

277. It is easy to imagine this being a snowman in space. It was photographed by the New Horizons spacecraft in 2019. Identify the nickname of this object located in the Kuiper Belt.

ULTIMA THULE

278. This early English settlement in America, between the Charles and Merrimack rivers, was led by Governor John Winthrop. It was settled by about a thousand Puritan refugees from England. Name this colony that later included communities like Dorchester, Watertown, and Boston.

MASSACHUSETTS BAY (COLONY) (Must include BAY)

279. This French settlement in North America was established by Jean Ribault [zhahn ree-BOH] in 1562. It was settled by French Protestants who sought a place to worship freely. Identify this Florida settlement that was destroyed by the Spanish from St. Augustine.

FORT CAROLINE

280. This weekly newspaper is currently published in Frankfort, but it has a long history in the state. It was started in Lexington by Fielding and John Bradford in 1787. Name this first newspaper published in Kentucky.

(THE KENTUCKY) GAZETTE

281. This state capital began as a trading post at the falls of the James River. It was that river's head of navigation--the point at which vessels could not proceed upstream. Identify this city, one of the last Confederate strongholds to fall in the Civil War, and the capital of Virginia.

RICHMOND

282. This Kentucky home was built as a fortress against Native American attacks in the late 1700s. It was the first brick house built in Kentucky. By what name is this home in Crab Orchard, Kentucky known?

(WILLIAM) WHITLEY (HOUSE)

283. This elected body functioned like the House of Commons in the British Parliament, making laws that could be overridden by the governor and his council. It was the first elective governing body in any of Britain's overseas possessions. Identify this elected body that was made up of two delegates from each settlement in the Virginia colony.

(THE) HOUSE OF BURGESSES

284. Along with the Mississippi River, this geologic feature forms Kentucky's western border. It was the site of three natural disasters beginning in December 1811. Name this geologic feature, which could be the site of earthquakes today.

NEW MADRID FAULT (Accept: NEW MADRID SEISMIC ZONE or NEW MADRID RIFT)

285. This proposed colony was founded by land speculator Richard Henderson. It was to be located in central and eastern parts of Kentucky on land that Henderson had purchased from the Cherokee. Identify this colony that ceased to exist when the Virginia legislature invalidated his purchase, and lends its name to a university in Lexington.

TRANSYLVANIA (COLONY)

286. This construction project was designed to open up the interior of North America early in our nation's history. It would help connect the Great Lakes with the Atlantic coast. Identify this "big dig" that connected Buffalo, New York with the Hudson River and New York City.

ERIE CANAL

287. Twelve French nuns founded this school for girls in 1727, providing education for girls from the local native tribes as well as those from the French settlers. It would later become the first school to offer classes for female slaves and free women of color. What is the oldest continuously-operating school for girls, and the oldest continuously-operating Catholic school, in the United States?

URSULINE ACADEMY (OF NEW ORLEANS)

288. This mineral was first used as currency around 700 B.C. It's a soft metal, and has symbol A-u. What mineral led people to "rush" to California in 1849?

GOLD

289. On July 4, 1863, this Confederate stronghold surrendered to forces led by General Ulysses S. Grant. Its capture divided the Confederacy along the Mississippi River. Name this city on the east side of the river, between Memphis and New Orleans.

VICKSBURG

290. Two-word answer required. This escape route stretched through 14 northern states. Its conductors included such people as Harriet Tubman. What route was used by slaves to reach freedom in Canada?

UNDERGROUND RAILROAD

291. This Kentucky road starts just east of Elizabethtown, and ends just west of Lexington. Its former name referred to a plant. What highway was named in 2003 in honor of Kentucky's first female governor?

(MARTHA LAYNE) COLLINS (BLUEGRASS) PARKWAY

292. This place lies at the southern end of the Appalachian Mountains, and became the southern terminus of the railroad. Its location during the Civil War led to its destruction by Union forces led by General Sherman. Identify this modern city in Georgia that has become the principal trade and transportation center of the southeastern United States.

ATLANTA

293. This city lies at the western edge of the Great Plains. Its metropolitan area includes cities such as Aurora, Golden, and Boulder. Name this Colorado city whose football team won the 2016 Super Bowl.

DENVER

294. This economic period caused drastic declines in production, and severe unemployment in many parts of the world. Its most severe time in the United States ran from 1929 through 1933. What period, that saw stock market crashes and bank failures, led to the election of Franklin Roosevelt as president?

(GREAT) DEPRESSION

295. This Kentucky region is in the northernmost part of the Gulf Coastal Plain. Its name refers to the result of an 1818 treaty with the Chickasaw people. Identify this region that includes the lowest point in Kentucky, located near the New Madrid [MAD-rid] Bend.

(JACKSON) PURCHASE

296. This fourth largest of the Great Lakes in surface area lies between the United States and Canada. Its ports include Cleveland, Ohio, and Buffalo, New York. Name this lake that discharges its water through the Niagara River.

(LAKE) ERIE

297. This monument includes a bronze statue known as The Three Soldiers and a smaller memorial dedicated to the women who served in its namesake war. Its primary feature, was designed by Maya Lin and has names of those who died during the conflict. What is this memorial in Washington, D.C., characterized by a reflective black wall?

VIETNAM (VETERANS MEMORIAL)

298. This governmental agency was established immediately following the Civil War. Its purpose was to provide aid to newly freed African-Americans. Name this organization that built schools and hospitals, and distributed food and other aid.

FREEDMEN'S BUREAU (Accept: BUREAU OF REFUGEES, FREEDMEN, AND ABANDONED LANDS)

299. This concept first arose in ancient Greece where it applied to male property owners. Its responsibilities generally include loyalty, taxation, and military service. What is this term for the relationship between an individual and a state or nation?

CITIZENSHIP

300. This unusual subtropical river may be up to fifty miles wide, but is seldom more than a foot deep. Its waters move slowly southward into mangrove swamps, and then into the Gulf of Mexico. Name this wide expanse of saw-grass marsh located in South Florida.

(FLORIDA or THE) EVERGLADES

301. George Washington coordinated the design for this building, but died before its construction was completed. John Adams was the first president to live in what presidential mansion, located in Washington, D.C.?

(THE) WHITE HOUSE

302. This town was founded by Walker Daniel, Kentucky's first district attorney. Kentucky's first Constitution was written here. Name this town, the county seat of Boyle County and the home of Centre College.

DANVILLE

303. This industry attracted early French settlers called voyageurs [voy-uh-ZHURS]. Later, it was the industry that made the Hudson's Bay Company wealthy. What industry also led many early Americans to trap beaver and other animals?

FUR (TRADING)

304. In this conflict, Commodore Dewey destroyed the Spanish fleet stationed in the Philippines. Later, Teddy Roosevelt and his Rough Riders were part of the force that invaded Cuba. Name this war that was partly sparked by the 1898 destruction of the U.S.S. Maine in Havana harbor.

(THE) SPANISH-AMERICAN (WAR)

305. This city was established where the east-west and north-south railroads of southeastern United States met. Local deposits of coal, limestone and iron ore helped this community become the iron and steel center of the South. Name this city that is now the largest city in Alabama.

BIRMINGHAM

306. This region's name comes from the Ojibwa word for "giant." Located in Minnesota, it is the largest of three such ranges in the state. What iron range extends 110 miles across northern Minnesota?

MESABI (RANGE)

307. This monument was commissioned by Henry Standing Bear in 1948 and is expected to be 641 feet long and 563 feet high. Located less than twenty miles from Mount Rushmore, it will be the largest mountain carving on earth upon completion. Name this unfinished memorial located in the Black Hills of South Dakota that commemorates a Native American warrior.

CRAZY HORSE (MEMORIAL)

308. In 1807, the third Vice President of the United States, Aaron Burr, went on trial for this crime against the country. Many associate this action with Benedict Arnold, after he betrayed the Continental Army during the Revolutionary War. The term 'traitor' is often given to an individual who commits what crime, in which a person acts against his or her country?

TREASON

309. These levies can be luxury or value added types. Many of them, however, are based on how much income a person or business has. What do residents of a nation, state, or city pay so public services can be provided?

TAXES (Accept equivalent answers)

310. This river rises in Minnesota. Mark Twain wrote stories about life along this river. Name this river whose tributaries include the Missouri and Ohio Rivers.

MISSISSIPPI (RIVER)

311. Many students learn the names of these bodies of water using the acronym HOMES. Members of this group include Superior and Ontario. What is the collective name for the bodies of water that make up much of the boundary between the United States and Canada?

GREAT LAKES

312. Members of this governing body have included Thomas Jefferson, George Washington, and Patrick Henry. Modeled on England's House of Commons, it included men elected from each of its colony's eleven settlements. Give the name of colonial Virginia's representative assembly.

HOUSE OF BURGESSES

313. This U.S. city is made up of five boroughs, including Manhattan and the Bronx. More people live here than in any other city in the United States. Name the city that is nicknamed "The Big Apple."

NEW YORK (CITY)

314. This economic concept can be derived from work, investment, and business sources. Most countries tax such earnings. What is the sum of a person's earnings in a given time period?

INCOME

315. This state produces more wind power than any other U.S. state. Most of its wind farms are located in the west central part of the state, between Odessa and Abilene. Name this state that is also a major producer of crude oil.

TEXAS

316. These mountains were the scene of the 1980 Winter Olympics at Lake Placid. Most of them are included within a New York state park, one of the largest such parks in the United States. Name these mountains that are frequently included as a northern part of the Appalachian Mountain system.

ADIRONDACKS (Accept ADIRONDACK (MOUNTAINS))

317. In order to establish a foothold in the New World and to spread the Roman Catholic faith among the Native Americans, the Spanish built these church structures. Most were located in Florida, Texas, New Mexico, Arizona, and California. Identify this type of structure, one of the most famous of which is the Alamo in San Antonio, Texas.

MISSION

318. This two-word phrase refers to a program of national revival proposed by a Democratic candidate for president. Much of the legislation was enacted in the first 100 days he was in office. Identify this program associated with Franklin Delano Roosevelt.

NEW DEAL

319. Multiple answer required. Along with the Tug and Big Sandy Rivers that form Kentucky's border with West Virginia, two other rivers define Kentucky's boundaries to the north and the southwest. Name these two rivers.

OHIO AND MISSISSIPPI (RIVERS) (in either order)

320. After the 2016 World Series was over, this team then became the team that has gone the most years without winning a World Series. Name this American League team from northern Ohio that was defeated by the Cubs in the 2016 World Series.

CLEVELAND INDIANS (Accept: CLEVELAND or INDIANS)

321. This English prison reformer secured a charter to establish a colony in America where the poor could have a fresh start. Name this British military officer who established the colony of Georgia.

(JAMES) OGLETHORPE

322. This western U.S. mountain is a dormant volcano surrounded by a major system of glaciers. Name this highest mountain in Washington state that is surrounded by its own national park.

(MOUNT) RAINIER [ruh-NEER, RAY-neer]

323. This former director of the F.B.I. was appointed as special counsel to the Justice Department in 2017. Name this man who led the investigation into possible interference by a foreign nation in the 2016 presidential election.

(ROBERT) MUELLER

324. Surname required. This president had been an army general before his election in 1952. Name this president whose nickname was "Ike."

(DWIGHT DAVID) EISENHOWER

325. He was a vice president for two terms, and was elected president twice--in 1968 and again in '72. Name this president whose second term was cut short by the Watergate scandal.

(RICHARD M.) NIXON

326. He is the current chief executive of the Commonwealth of Kentucky. Name this Republican who became Kentucky's governor in 2015.

(MATTHEW GRISWOLD "MATT") BEVIN

327. This state was the site of one of the the world's first successful oil wells, drilled in 1859 at Titusville. Name this state, home of the Liberty Bell, and Ben Franklin's print shop.

PENNSYLVANIA

328. In 1774, the year before the settlement of Boonesborough, this fort became the first permanent settlement in Kentucky. Named for its founder, it is located near the present-day city of Harrodsburg. What is this fort?

(FORT) HARROD

329. These four Colorado Plateau states come together at a point known as the Four Corners. Nearby tourist attractions include the Mesa Verde National Park, and the Canyons of the Ancients National Monument. What four states come together at the Four Corners Monument?

UTAH, COLORADO, NEW MEXICO, ARIZONA (Accept: ANY ORDER)

330. Nearly 500 Kentuckians lost their lives during and immediately after this 1813 battle. Nine counties in Kentucky were named for officers who fought there, including eight who were killed. Identify this War of 1812 battle that gave a rallying cry similar to "Remember the Alamo."

(BATTLE OF) RIVER RAISIN (Accept: (BATTLE OF) FRENCHTOWN, (BATTLE OF) RIVER RAISIN)

331. Police officers and courts make sure that citizens uphold this responsibility. Not doing so can result in a penalty or punishment. What must citizens do that helps ensure safety and justice?

OBEY LAWS

332. The 15th, 19th, 23rd, 24th, and 26th Amendments to the U.S. Constitution concern the American right to participate in this process. Not only is this a right, but it is also a responsibility that helps maintain the democratic system of government. What right allows citizens to elect officials and decide on important issues?

VOTING

333. This freedom is one of the four freedoms of expression protected by the Constitution. Now it covers not only printed materials, but also broadcasts and the Internet. Which freedom mentioned in the First Amendment allows people to publish their opinions?

(FREEDOM OF THE) PRESS

334. This interstate highway is one of two that separates Kentucky into two parts, east and west. On it, travelers can drive from Cincinnati, Ohio to Jellico, Tennessee. What is this interstate that can take you as far south as Florida?

(INTERSTATE) 75

335. This actress died in 2016, two days after Christmas. One day later, her mother, Debbie Reynolds, also passed away. Whose best known role was the Star Wars character, prisoner of Jabba the Hutt, Princess Leia?

(CARRIE) FISHER

336. This social science began as a hobby for gentlemen in the 18th and 19th centuries. One such thinker defined it as the "study of mankind in the ordinary business of life." What social science deals with how wealth is produced, distributed, and used?

ECONOMICS

337. This bayside location transformed from a tiny settlement into a city of 150,000 people in less than 25 years. People made and lost fortunes here as they searched for gold and, a decade later, silver. What is this city, which experienced devastating earthquakes in 1906 and 1989?

SAN FRANCISCO

338. People with this job may focus on different traits of a country, such as its physical features or its cities and roads. People with this job rarely get famous, except for Amerigo Vespucci. What term is defined as a person who makes maps?

CARTOGRAPHER

339. This settlement began as a Dutch trading post on the south shore of Manna-hata Island. Peter Minuit negotiated with the local Native Americans to purchase the area. Name this Dutch settlement that would become New York City when the English took it over.

NEW AMSTERDAM

340. This was a center of borax mining, and featured the twenty-mule-team wagons of the Old West. Quite a few settlers bound for California lost their lives in this arid place. Name this hottest, driest, and lowest part of the United States.

DEATH VALLEY (CALIFORNIA)

341. Kentucky has a motto, but it's not what appears on automobile license plates. Quote this six-word motto that declares what happens to us as a state if we don't work together.

UNITED WE STAND, DIVIDED WE FALL

342. The engine company is the basic unit of this department run by a city government. Red trucks with sirens transport hoses and pumps to carry out the company's objectives. What department prevents and extinguishes fires?

FIRE (DEPARTMENT)

343. This fort replaced a stockade built near the mouth of Beargrass Creek in present-day Louisville. Richard Chenoweth built it in 1781, and named it for Virginia's governor at the time. Name this fort that was located near the Ohio River, with its main gate near Seventh Street.

(FORT) NELSON

344. Though this movement began in the late 1700s in Europe, it spread to North America in the mid-1800s with the help of Francis Cabot Lowell. Samuel Slater contributed by bringing his knowledge of textile technology from England to the United States. Identify this period that brought about mass production of goods.

INDUSTRIAL REVOLUTION

345. After playing for Davidson College for three seasons, he entered the NBA draft in 2009. Selected in the first round, he was the first player from his team to lead the league in free throw percentage. Identify this point guard who won the 2015 NBA Most Valuable Player award, from the Golden State Warriors.

(WARDELL STEPHEN "STEPH") CURRY (THE SECOND)

346. This seventeenth-century concept was the forerunner of the modern corporation. Shareholders pooled their money to become partners in a venture that required a large investment. Identify this kind of company, which sometimes received a charter to found an English colony in North America.

JOINT-STOCK (COMPANY)

347. Introduced in 1959 by Ruth Handler, she encouraged girls to be anything they wanted to be. She appeared as a holder of numerous careers and, every Christmas, in a special holiday version. What doll produced by Mattel recently underwent a makeover, and is available in three new body types?

BARBIE (Accept: BARBARA MILLICENT ROBERTS)

348. This college basketball coach won eight national titles for the University of Tennessee. She died in June 2016 of early onset dementia. Name this iconic coach who was a pioneer in the world of women's sports.

(PAT) SUMMITT

349. First and last name answer required. President Harry Truman called this woman the "First Lady of the World", though she was also the niece of the 26th president of the United States. She encouraged her husband to remain in politics following his polio diagnosis, and after he was elected to the White House, she wrote for newspapers and magazines while advocating for civil rights. Name this wife of the U.S. president that served during the Great Depression and the majority of World War Two.

ELEANOR ROOSEVELT

350. For 31 years, this woman has represented California's 12th congressional district, including most of San Francisco, in the U.S. House of Representatives. She served as the House Minority Leader from 2003 to 2007, and then again from 2011 to 2019, after which she took over the position previously held by Paul Ryan. Name this Democratic congresswoman who, in January 2019, held the title of Speaker of the House.

(NANCY) PELOSI

351. In June 2018, this politician defeated the incumbent congressman Joe Crowley to win the Democratic primary for New York's 14th congressional district. She went on to win the seat in the U.S. House of Representatives in November 2018, becoming the youngest woman to ever be elected to Congress. Name this Democratic U.S. Representative, nicknamed by her followers AOC.

(ALEXANDRIA) OCASIO-CORTEZ

352. The commander of this space mission remarked upon making contact with the lunar surface that "the Eagle has landed". Shortly before Buzz Aldrin exited the spacecraft during this mission, Neil

Armstrong delivered the famous words: "That's one small step for man, one giant leap for mankind." Identify this NASA mission in 1969 that landed the first people on the moon.

APOLLO 11

353. This religious movement took place in the early 1700s, primarily among groups including Congregationalists, Presbyterians, and Baptists, almost all of whom were Calvinists. Some of its leaders included George Whitefield and Jonathan Edwards. By what name do we know this revival, which revitalized religion in the North American colonies?

(THE) (FIRST) GREAT AWAKENING

354. Members of this group of European protestants emigrated to America in the late seventeenth century. Some settled in New Amsterdam with the Dutch, and others chose the British colony of Nova Scotia. Identify this religious group from France.

HUGUENOT(S)

355. This mission near San Antonio became an important symbol in the Texas war for independence from Mexico. Some two hundred defenders, including Davy Crockett, held out here for 13 days against Santa Anna's Mexican army. Name this fort commanded by James Bowie and William Travis.

(THE) ALAMO

356. This shrine was originally the chapel of a mission that had been abandoned by 1800. Spanish and Mexican troops used it off and on beginning in 1801. What shrine in San Antonio, Texas, fell to Santa Anna's army in 1836?

ALAMO

357. Happy Chandler served in this capacity in Kentucky twice, but not consecutively. Steve Beshear also served twice and in consecutive terms. What is this executive office that was first filled by Isaac Shelby?

(KENTUCKY) GOVERNOR

358. This term describes the rapid movement of fortune seekers to sites where a certain source of mineral wealth is discovered. Such a movement occurred in northern Georgia, leading to the Indian Removal Act. Which term most famously described the movement of thousands of "forty-niners," who hurried to California in search of a precious metal?

GOLD RUSH

359. This route began in Independence, Missouri, and continued for some 2,000 miles. Tens of thousands of people traveled it in covered wagons across the Great Plains, along the Platte River, and through the Rocky Mountains. What trail led settlers along the Snake and Columbia rivers to the great Northwest?

(THE) OREGON TRAIL

360. This three-word title arises from Article Three of the U.S. Constitution. That article gives the president the authority to lead "the army and the navy of the United States." What three-word title refers to the president when he acts in this role?

COMMANDER-IN-CHIEF

361. The most-visited memorial at this location commemorates the USS Arizona battleship that was sunk in a surprise attack. That attack on this location prompted President Franklin D. Roosevelt to declare December 7, 1941, as a "date which will live in infamy". What naval base in Hawaii was attacked by Japanese forces, causing the United States to enter World War Two?

PEARL HARBOR

362. Individuals who serve in this role function as part of both the executive and legislative branches, since they are first in the presidential line of succession, but also preside as President of the Senate. The 12th Amendment to the U.S. Constitution specifies that, in presidential elections, electors cast separate votes for the president and this position. What is this position in the U.S. government, held in 2018 by Mike Pence?

VICE PRESIDENT (OF THE UNITED STATES)

363. This national symbol was protected by an act of Congress passed in 1940. The act banned hunting in the 48 states, but DDT caused a sharp decline in numbers by the 1960s. What national symbol flies and has a white head?

BALD EAGLE

364. The first secretary of this cabinet agency took office in 1790, ten years before he was elected president. The agency is responsible for the foreign policy of the United States. As of 2016, what department was headed by John Kerry?

(DEPARTMENT OF) STATE (Accept: STATE DEPARTMENT)

365. This Middle Eastern nation agreed to a historic nuclear deal with a group of six nations in 2015. The agreement allowed the six nations to lift economic sanctions on this nation. What nation agreed to limit its ability to produce nuclear weapons?

(ISLAMIC REPUBLIC OF) IRAN

366. Here you will find the greatest concentration of hydrothermal features on earth. The area was established as a national park by Congress in 1872, making it the oldest such park in the nation. What is this park that attracts tourists to its features, especially Old Faithful?

YELLOWSTONE (NATIONAL PARK)

367. Ships of this kind developed the Civil War, and marked the beginning of the modern, self-propelled warship. The best-known were the Union Monitor and the Confederate Merrimack, which fought off Hampton Roads, Virginia, in 1862. What new type of metal-covered ships were they?

IRONCLADS

368. This collection of amendments was largely written by James Madison. The collection provides for freedom of speech and due process, among other rights. What do we call the first ten amendments to the Constitution?

(THE) BILL OF RIGHTS

369. This community of the Society of Believers was known by the name they gave a piece of gently rolling farmland they bought in 1808. The community grew up near the Kentucky River in what is now Mercer County. Give the name of this Shaker village that is now a tourist attraction.

PLEASANT HILL (Accept: SHAKERTOWN)

370. These rights were the subject of a nationwide effort in the 1950s and 1960s. The Constitution guarantees and protects them for U.S. citizens. What rights ensure equal treatment for all citizens?

CIVIL (RIGHTS)

371. This Supreme Court case led to a code of conduct for police interrogations of criminal suspects held in custody. The court declared that certain minimum safeguards had to be met to ensure that the suspect understood his rights. By what name do we know this case, or the warnings that resulted from it?

MIRANDA (V. ARIZONA) (Accept: MIRANDA WARNING)

372. Columbus said natives of the West Indies used this word to describe the pirogue [pih-ROHG]. The dugout type was made from a hollowed-out tree trunk. What type of Native American water transportation was also made of birch bark?

CANOE

373. While hardwood forests cover the land above, this subterranean series of passageways has attracted visitors from around the world. The entire system has a combined length of at least four hundred miles of underground passages. Name this place in Kentucky that is the longest cave system on earth.

MAMMOTH CAVE (NATIONAL PARK)

374. In December 2018, individuals who held this title included Elena Kagan, Neil Gorsuch, and Brett Kavanaugh. The first African-American to be appointed to this position was Thurgood Marshall, and the first woman in this position was Sandra Day O'Connor. Identify this role held by eight people in the highest court of our judicial branch.

(ASSOCIATE) JUSTICE (OF THE SUPREME COURT) (Must say JUSTICE)

375. This small creek in northern Virginia gave its name to two battles. The first battle, fought on July 21, 1861, ended in a Southern victory. Identify this small stream near Manassas, Virginia.

BULL RUN

376. John and Fielding Bradford were the proprietors of this early Kentucky publication. The first issue was published in August 1787 in Lexington. What was the first newspaper in Kentucky?

((THE) KENTUCKY) GAZETTE

377. This type of pollution comes in sulfurous and photochemical types. The former is associated with London, the latter with Los Angeles. What human-caused pollution is a combination of smoke and fog?

SMOG

378. This fort was built by French Huguenots at a spot along the Florida coast. The fort was attacked and destroyed by the Spanish led by Pedro Menendez de Aviles [AH-vee-lace]. Identify this French settlement that existed near present-day St. Augustine, Florida.

(FORT) CAROLINE

379. This North American river is one of the world's best sources of hydroelectric power. The Grand Coulee and Bonneville dams were built on it in the 1930s, including a fish ladder at Bonneville for migrating salmon. Name this river that begins in British Columbia and ends in the Pacific at Astoria, Oregon.

COLUMBIA (RIVER)

380. This part of the Great Plains underwent a significant change in the 1930s during a severe drought. The land had been turned from grasslands into wheat fields, and the drought caused the wheat to die, exposing the topsoil. What name was given to this section of the Great Plains, a name that reflected the windblown soil piled in drifts?

DUST BOWL

381. This term refers to the many freed black men and poor white farmers who farmed land belonging to large planters after the Civil War. The landowners provided the seed, fertilizer, and tools, and the farmers gave the landowners a share of the crop at harvest time. What is the term for these landless farmers?

SHARECROPPERS

382. In early 2019, this prime minister of a European nation was engaged in an effort to satisfy her nation's parliament regarding its exit from the European Union. The name given to that exiting process was Brexit, a combination of Britain and exit. Name that prime minister.

(THERESA) MAY

383. This name is given to an area eroded by deep gullies with saw-toothed divides. The name was first given by French-Canadian trappers to a part of southwestern South Dakota. Both this land, and the National Monument located there, share what name that indicates its inhospitability or roughness?

BAD(LANDS)

384. This state official elected in 2015 is the son of a former Kentucky governor. The office he was elected to was previously held by Jack Conway. In December 2016, who served as Attorney General of Kentucky?

(ANDREW GRAHAM "ANDY") BESHEAR

385. Susan B. Anthony led the movement to allow this group of Americans the right to vote. The passage of the 19th Amendment to the U.S. Constitution achieved that goal. What Americans voted for the first time in November, 1920?

WOMEN

386. Throughout the 1800s, the Oregon Trail exemplified this two-word phrase as American pioneers used that route to travel through many states, such as Kansas, Nebraska, and Wyoming. The phrase first appeared in 1845 and became especially popular once Texas was admitted to the Union, as more people wanted to settle further west. What is this idea that Americans were granted the right by God to expand all across North America?

MANIFEST DESTINY

387. This man received a privateering commission from Queen Elizabeth, which allowed him to plunder the King of Spain's lands. The queen also knighted him after he finished his voyage around the world. Name this man, who has been incorrectly credited with defeating the Spanish Armada.

(SIR FRANCIS) DRAKE

388. She got her first name because of where she was born. The rest of her life is a mystery, as the colony's inhabitants disappeared. Who was the first English child born in America?

(VIRGINIA) DARE

389. This symbol was adopted by Congress on June 14, 1777. The stars were originally in a circle, perhaps to symbolize a new constellation. Name the national symbol with 13 stripes and, currently, 50 stars.

(U.S.) FLAG (Accept: STARS AND STRIPES, OLD GLORY)

390. Two-word answer please. This type of home was introduced in America by the Swedes who established a settlement along the Delaware River. The style was adopted by early settlers as a simple way to use trees for building their shelters. What was this structure with round wooden beams, that were notched at the corners and had protruding ends?

LOG CABINS

391. This type of policy restricts government involvement in an economy. The term comes from a French phrase that means "allow to do." What is this term that describes a policy of allowing businesses to regulate themselves?

LAISSEZ FAIRE [les-ey FAIR]

392. At this type of place, the buying and selling of shares of different companies occurs. The two largest in the world are the NASDAQ and the NYSE. The crash of what institution in 1929 was one of the causes of the Great Depression?

STOCK MARKET

393. Early New Englanders so valued this book that they passed laws requiring parents to teach their children to read and understand its principles. These laws eventually required all children to attend public school for a certain period of time. What was this book that was so important to people in Massachusetts?

(THE) BIBLE

394. Members of this judicial body must be approved by the U.S. Senate with at least 51 votes. These men or women are nominated by the president. What judicial body is the highest court in the United States?

SUPREME (COURT)

395. This governmental agency helps other nations by providing skilled workers in education, agriculture, health, and other fields. These workers are volunteers who choose to live and work in a foreign country for two years. What agency was founded by President Kennedy in 1961?

PEACE CORPS

396. Today, Louisianans use this term for French-speaking white descendants of early French and Spanish settlers. They also use it to designate a person of mixed black and white ancestry who speaks a form of French and Spanish. What term originally identified someone of European descent who was born in America?

CREOLE

397. When this occurs in economics, businesses are discouraged from making significant investments. They are also slow in hiring new employees, and may lay off some. What do we call a short-term decline in both production and employment that may require government assistance to overcome, less serious than a depression?

(A) RECESSION

398. The members of this branch of the U.S. government are appointed by the president and confirmed by the Senate. They are appointed for life, but can be removed if they fail to show good behavior. What branch of government interprets the laws?

JUDICIAL (Accept: JUDICIARY)

399. This type of watercourse moves very slowly--sometimes not at all. They are often associated with the Cajun people. Name this type of stream found in Mississippi and Louisiana.

BAYOU

400. In February 2019, the father of the owners of this sports franchise was forced to apologize for comments he had made in emails about his city's mayor, Rahm Emmanuel. They are one of two MLB teams in their city, with the other being the White Sox. Name this team that plays its home games in Wrigley Field.

(CHICAGO) CUBS

401. In Kentucky, these elected officials must have resided in their district for one year. They must also be citizens of Kentucky who are at least 24 years old. What members of the Kentucky General Assembly are elected every two years?

(STATE) REPRESENTATIVES

402. This British group first appeared on U.S. television on February 9, 1964. They performed three songs, including "I Want to Hold Your Hand," on The Ed Sullivan Show. What group began the British music invasion?

(THE) BEATLES

403. This term identified Europeans who agreed to work for their passage to America. They signed contracts to work for a number of years without wages, in order to repay the person who had paid their way. Give the term for such people, who often moved into the middle class after their service was finished.

INDENTURED SERVANT

404. Multiple answer required. These were four slave states all during the Civil War that did not leave the Union. They were called border states, because they bordered both free and slave states. Name these four states in any order.

DELAWARE, MARYLAND, KENTUCKY, MISSOURI (any order)

405. This vessel brought a group of colonists to Cape Cod Bay in 1620. They were mainly members of the Separatist religious group. Identify this ship, which shares its name with the compact they signed before going ashore in Plymouth, Massachusetts.

MAYFLOWER

406. This type of dwelling was traditionally made from limestone blocks or large adobe bricks. They were modeled after the cliff houses of the Anasazi [ah-nuh-SAH-zee]. Identify this type of dwelling common in the Southwest.

PUEBLO

407. This island in what is now North Carolina was the site of an early attempt by the English to make a settlement in North America. This colony is often called the Lost Colony because no one knows what became of its people. Identify this island, the birthplace of the first child born of English parents in North America.

ROANOKE (ISLAND)

408. In Kentucky this judicial body has seven members who serve eight-year terms. This court always reviews criminal cases in which the penalty is death or life imprisonment. Identify this judicial body that is the "court of last resort" regarding state law.

(THE) SUPREME COURT (OF KENTUCKY) (Accept KENTUCKY SUPREME COURT)

409. In the nineteenth century, a popular phrase describing defeated politicians stated that they had been "rowed up" this river. This Kentucky river once led to the most important salt-producing area of the state. Identify this river whose main tributaries include Floyds Fork and the Rolling Fork River, and whose waters fill Taylorsville Lake.

SALT (RIVER) (Accept: SALT LICK (RIVER))

410. Full name required. His brother William made a really long trip to the Pacific Northwest. This man got the French at Vincennes to change their allegiance to the Americans. Name this frontier military leader in the American Revolution who led the capture of both Kaskaskia and Cahokia.

GEORGE (ROGERS) CLARK

411. This chain of schools announced it was closing all its campuses in September 2016. This meant 35,000 students would be without a school, and 8,000 employees would lose their jobs. Name this Institute that lost its ability to welcome new students who used Federal financial aid.

ITT (TECHNICAL INSTITUTE)

412. She was captured by Native Americans while floating in a canoe with Elizabeth and Frances Callaway. This occurred on the Kentucky River in 1776, just as the American Revolution was beginning. Name this girl who would be rescued by her father, and later marry Flanders Callaway.

(JEMIMA) BOONE

413. These were descendants of Roman Catholic French Canadians who were driven away from Nova Scotia, and settled in southern Louisiana. This occurred when the British captured the French colony of Acadia in the seventeen hundreds. Name this ethnic group whose name has been given to a cuisine that reflects the cultural mix of Louisiana.

CAJUN (ACCEPT: ACADIANS)

414. In Kentucky, this county official is responsible for collecting property taxes. This official is also responsible for providing bailiffs for the courts, and Andy Griffith has one. What title do we give to this official, who is more often thought of as a law-enforcement officer?

SHERIFF

415. This politician has served as both a United States Senator and a Secretary of State. This politician is closely tied to the president who was elected in 1992. Which former First Lady ran for the Democratic nomination for president in 2016?

(HILLARY RODHAM) CLINTON

416. An example of this economic term would be if the price of a candy bar was fifty cents one year and fifty-five cents the next year. This process can affect luxury items such as cars and everyday items such as groceries, and it is relative to the amount of money that is available. What is this term that refers to an increase in the price level of goods and services over time?

INFLATION

417. The treaty for this agreement was negotiated for the United States by James Monroe and Robert Livingston. This real estate deal doubled the size of the United States, and opened up the continent to westward expansion. Name this 1803 real estate transaction with France.

LOUISIANA PURCHASE

418. This town was established as a mission in 1718 by a Spanish expedition from Mexico. This second most-populous city in present-day Texas, it has a population that is about three-fifths Hispanic today. Name this city where you will find the Alamo mission.

SAN ANTONIO

419. In 2015, President Obama announced that he would be renaming Mount McKinley in this state to its native name, Denali. This state was purchased from Russia by the U.S. Secretary of State William Seward. Identify this 49th state admitted to the United States in 1959, with its capital at Juneau.

ALASKA

420. This area contains some of the richest farmland in the United States. This valley produces cotton, fruits like grapes and peaches, grains like wheat and rice, nuts, and vegetables. By what name do we know this California valley?

CENTRAL (VALLEY OF CALIFORNIA)

421. This constitutional amendment regained popularity in 1982 when a college student initiated a national campaign to ratify the amendment after receiving a poor grade on an assignment. Though it was proposed in 1789, it wasn't ratified until over 200 years later in 1992. Identify this amendment which states that salary changes for members of Congress do not take effect until after the next election.

27(TH AMENDMENT) (Accept: (AMENDMENT) TWENTY-SEVEN)

422. Also known as political franchise, this term was frequently used in the late 1800s when a convention in Seneca Falls, New York, was held to advocate for this right. Though leaders such as Susan B. Anthony and Elizabeth Cady Stanton fought tirelessly for this right to be applied to females, it was not established until the passage of the 19th Amendment to the U.S. Constitution in 1920. Identify this term most commonly associated with the movement pushing for a woman's right to vote.

SUFFRAGE

423. In 1900, this was a tiny railroad center in the deserts of Nevada. Today it is perhaps the fastest growing metropolis in America. Name this city of bright lights, huge hotels, and vast casinos.

(LAS) VEGAS

424. These islands were first connected by a railroad that was destroyed by a hurricane in 1935. Today they are connected by a highway that includes 42 bridges, including one 7 miles long. What string of islands begins south of Miami Beach?

(FLORIDA or THE) KEYS

425. This two-word religious movement spread throughout the British North American colonies in the early 1700s. Two men largely responsible for its popularity were George Whitefield and Jonathan Edwards. What was this movement, during which colonists found new interest and comfort in Christianity?

(THE) GREAT AWAKENING

426. This incident arose from the killing of 11-year-old Christopher Seider. Two weeks later, a crowd threw snow, ice, and oyster shells at British troops, one of whom fired his rifle by accident. Identify the March 1770 incident in which Crispus Attucks and four others were killed.

BOSTON MASSACRE

427. At this battle, the British under General Edward Pakenham suffered some 2,000 casualties. U.S. forces, mostly volunteers and militiamen from the South, had only 71 casualties. What battle won by troops under Andrew Jackson happened after Great Britain and the U.S. signed a treaty to end the War of 1812?

(BATTLE OF) NEW ORLEANS

(HURRICANE) MATTHEW

429. This war began when Northern People's Army troops crossed the 38th parallel and invaded the southern part of the peninsula. U.S. troops entered the war because American officials saw it as a fight against international Communism. What war lasted from 1950 to 1953?

KOREAN (WAR)

430. This collection of agreements was also signed by France and Spain. Under the treaty, Britain recognized the Mississippi River as the western boundary of the U.S. What treaty ended the Revolutionary War?

(TREATY OF) PARIS (OF 1783) (Accept: PEACE OF PARIS (OF 1783))

431. After working in a bookstore in Boston, this man was appointed by George Washington as the chief artillery officer in the Continental Army. Washington later appointed this man to his Cabinet, where he oversaw the new nation's military and defense. Name this man who served as the country's first Secretary of War from 1789 to 1794.

(HENRY) KNOX

432. This sawgrass marsh region in the United States covers over 4,000 square miles. Water passes slowly through it to mangrove swamps bordering the Gulf of Mexico. What region, described as a "river of grass," lies in south Florida?

EVERGLADES

433. This means of economic transaction took place when fur traders obtained furs from Native Americans. We might think of this as swapping or trading. What is this system of direct exchange of goods and services without the use of money?

BARTER(ING)

434. Here water moves slowly southward into the mangrove swamps bordering the Gulf of Mexico. Westward you will find the Big Cypress Swamp. Give the name of this subtropical sawgrass marsh region of southern Florida.

(FLORIDA) EVERGLADES

435. This Wisconsin congressman succeeded John Boehner [BAY-nehr] in an important position in Congress. What 2012 vice presidential nominee was elected speaker of the House of Representatives in 2015?

(PAUL) RYAN

436. In securities and commodities trading, this is a market in which prices are expected to rise. What animal is identified with this kind of rising market?

BULL (MARKET)

437. A state park in Henderson, Kentucky, was established in honor of this artist in 1934. What artist was famous for his watercolor paintings of birds, including volumes such as Birds of America?

(JOHN JAMES) AUDUBON

438. In defiance of United Nations resolutions, this country tested a nuclear device in January 2016 and launched a satellite into space in February 2016. What Asian country has never signed a peace treaty ending its war with its neighbor to the south, and was led in 2015 by Kim Jong-un?

NORTH KOREA

439. This bank was fined \$24 million by the Department of Justice for illegally repossessing vehicles owned by military members. What bank was also condemned in 2016 for creating millions of fake accounts in its customers' names?

WELLS FARGO

440. This decision-making body is headed by the county judge-executive. What body also includes magistrates, and takes care of running a county?

FISCAL COURT

441. These brothers owned a bicycle repair shop in Dayton, Ohio, but spent their spare time trying to develop another form of transportation. What brothers realized their dream of flying, at Kitty Hawk, North Carolina, on December 17, 1903?

WRIGHT BROTHERS (Accept: WRIGHTS, WILBUR AND ORVILLE WRIGHT)

442. The secretary of this cabinet department is currently the last one in the presidential line of succession. What cabinet department was created following the terrorist attacks on the United States on September 11, 2001?

(DEPARTMENT OF) HOMELAND SECURITY

443. People committing this category of crime lose their right to vote, and their right to bear arms, in many states. What category of crime is more severe than a misdemeanor?

FELONY

444. This Kentucky city is the birthplace of Muhammad Ali. What city lies on the Ohio River and has the largest population in Kentucky?

LOUISVILLE

445. The ruins of this city are located in downtown Mexico City today. What city on Lake Texcoco was the capital of the Aztec Empire, from 1325 to 1521?

TENOCHTITLAN [teh-nawch-tee-TLAHN]

446. This Kentucky city is part of an industrial area that includes Ironton, Ohio, and Huntington, West Virginia. What city on the Ohio River in Boyd County lies near the Big Sandy River?

ASHLAND

447. This plant, grown in the southern American colonies, was common in the coastal regions of Georgia and South Carolina. What crop was desired for its use in coloring fabrics a deep blue color?

INDIGO

448. This department oversees services for highways, railroads, mass transit systems, waterways, and aviation facilities. What department is also in charge of reporting road conditions and conducting public safety programs?

(DEPARTMENT OF) TRANSPORTATION

449. This desert exists because the Himalayas block rain clouds from reaching the region. What desert covers parts of Mongolia and China, and is the largest in Asia?

GOBI (DESERT)

450. The Kentucky Transportation Cabinet issues these to Kentucky residents who are at least 16 years old, and who have successfully completed written, vision, and skills tests conducted by the State Police. What do many teenagers look forward to obtaining upon turning 16?

DRIVER'S LICENSE (Accept PERMIT or like answer)

451. After Union forces won the Battle of Antietam, President Lincoln issued this document. What document freed slaves held in the states in rebellion against the U.S.?

EMANCIPATION PROCLAMATION

452. This freedom developed from events and documents such as the Maryland Toleration Act. What freedom, guaranteed by the First Amendment, gives people the right to worship or not worship as they believe?

(FREEDOM OF) RELIGION

453. States with this collective name referred to states that allowed ownership of slaves, but did not secede from the United States during the Civil War. What group of states during the Civil War included states like Missouri, Maryland, and Kentucky?

BORDER (STATES)

454. This event happened when people disguised as Indians boarded ships owned by the British East India Company and threw the cargo overboard. What happened in response to British Parliament's passage of the Tea Act?

BOSTON TEA PARTY

455. This four-letter word refers to an obligation to pay the money, goods, or services owed to another person. What is someone said to be in when he owes more money than he has?

DEBT

456. Protections found in this portion of the Constitution include the due process clause, and freedom of speech. What is the collective name for the first ten amendments to the U.S. Constitution?

BILL OF RIGHTS

457. Places like Indonesia and Hawaii are this type of geographic formation. What is the geographic term for a group of islands?

ARCHIPELAGO

458. Three buildings make up this library that has more than 90 million items on approximately 540 miles of shelves. What is the name for the library in Washington, D.C. that holds some of the rarest books in the world, including a copy of the Gutenberg Bible?

LIBRARY OF CONGRESS

459. The United States has this type of legislature because it has the House of Representatives and the Senate. What is the term for any government legislature that is made up of two separate houses?

BICAMERAL

460. As many as one-third of the men that made up this group were of African-American or Hispanic heritage. What is the term for the group of Americans that were responsible for herding cattle, from ranches in parts of Texas and Oklahoma, to railroads in states like Kansas?

COWBOYS

461. If Ben Franklin had gotten his way, the turkey would be our national emblem of our country instead of this bird, which is native to North America. What is this majestic bird that only looks hairless because it has a white head?

(BALD) EAGLE

462. This symbol of America depicts a bald eagle holding an olive branch in one talon, and thirteen arrows in the other one. What is this symbol in which the olive branch represents the power to make peace, and the arrows the power to make war?

(THE) GREAT SEAL (OF THE UNITED STATES)

463. The Constitution prohibits prosecuting someone for doing something that wasn't illegal when it was done. What kind of law, if enacted, would retroactively make conduct a crime that was not criminal when performed?

EX POST FACTO (LAW)

464. This type of map's contour lines provide the basis for many specialized maps. What kind of map shows natural and man-made features, as well as elevations above sea level?

TOPOGRAPHIC (MAP)
