BIBLE (BELT)

19. Typically appearing as a crystal, this group of minerals is often found throughout other rocks. Silica based, it is shiny when polished, and comes in a variety of colors. Name this rock class that is the most abundant mineral and has varieties such as amethyst, rose, and smoky.

QUARTZ

20. This author created the characters Cedric Errol and Sara Crewe. She also imagined Dickon Sowerby, Colin Craven, and Mary Lennox. Who wrote Little Lord Fauntleroy, A Little Princess, and The Secret Garden?

(FRANCES HODGSON BURNETT)

21. Three packages of copy paper cost \$18.00. Lisa needs only two packages of paper. At this rate how much will the two packages cost?

\$12.00 (TWELVE DOLLARS)

22. This dance accessory may be a ghillie [GIL-ee], pointe type, or clog. The ones used in tap dance have metal plates attached to their soles. Identify this specialized foot covering.

SHOE(S)

23. Cortez and Pizarro are examples of these warriors. They were leaders of the Spanish explorers in Mexico and Peru. What name was given to these men who led the conquest of the Mayans and Aztecs?

CONQUISTADOR

24. Unlike in the troposphere, in this atmospheric layer, temperature rises as you increase in altitude. Ozone in this layer absorbs sunlight and heats this area very effectively. Name this layer of Earth's atmosphere that is heated by ozone and whose lowest boundary is the tropopause.

STRATOSPHERE

25. An example of this figure of speech is, "That dog is as black as coal." One also appears in the sentence, "We go together like ketchup and mustard." Give the word for a comparison between two things using "like" or "as."

SIMILE

26. Mrs. Jayne said add 273.15 degrees to the Celsius degrees to find the Kelvin temperature. Determine the Kelvin temperature if the Celsius temperature is 30 degrees.

303.15 (KELVIN)

27. This charter member of the American Ballet Theatre choreographed *Fall River Legend* and *Three Virgins and a Devil* for that company. She also choreographed musicals like *Carousel*, *Brigadoon*, and *Paint Your Wagon*. Name the choreographer of the Rodgers and Hammerstein musical *Oklahoma!*

(AGNES) DE MILLE

28. Five of the original thirteen colonies are classified as these colonies which take the description from a cardinal direction. What group of colonies include South Carolina and Georgia?

SOUTHERN (COLONIES) (ACCEPT: SOUTH)

29. Scientists believe that our sun is a middle aged star of the yellow dwarf variety. As it ages and dies, however, what type of star will the sun turn into, though not for another 5 billion years?

RED GIANT

30. Ancient Egyptians associated this mythical bird with the sun's worship. Every 500 years, it supposedly builds a funeral pyre, burns itself, and rises from the ashes to begin a new life. What is this bird that shares its name with Arizona's capital?

PHOENIX

END OF FIRST HALF – Begin three minute inquiry period

Round 12 - Second Half 2022-23 Elementary Practice Questions

1. A bag of grapes weighs 32 ounces. How many pounds does the bag of grapes weigh?

2 (POUNDS)

2. In 1905, this man choreographed Anna Pavlova's [PAH-vluh-vuhz] solo The Dying Swan. For five years, he was the chief choreographer of the Ballets Russes [bal-EY ROOS] in Paris. Who choreographed the ballets Petrushka [puh-TROOSH-kuh] and The Firebird?

(MICHEL) FOKINE [mi-SHEL foh-KEEN]

DIXIE (ACCEPT: DIXIELAND)

4. This part of a cell may have been developed by cells absorbing bacteria and is surrounded by a double membrane. This part of a cell has a key role in processing nutrients taken in by the cell and converting them to energy. Name this "powerhouse" of the cell.

MITOCHONDRIA

5. In this nursery rhyme, the speaker refuses to wake the title lad. While that child is fast asleep under a haystack, the sheep has moved to the meadow and the cow has wandered into the corn. What is this rhyme that urges the child, quote, "come blow your horn"?

LITTLE BOY BLUE

6. These angles are used to name some triangles. These angles measure less than 180 degrees and greater than 90 degrees. What type of angle is an angle that measures 116 degrees?

OBTUSE (ANGLE)

7. This kind of stage takes its name from part of an ancient Greek theater. The audience sits directly in front of it. What is this so-called "picture frame" stage in which a curtain represents the fourth wall?

PROSCENIUM [pro-SEEN-ee-um] (STAGE)

8. People called this war that lasted from 1914 to 1918 the Great War. What war is usually considered the first modern worldwide war?

WORLD WAR ONE (ACCEPT: SIMILAR RESPONSES)

9. In fungi this structure takes the form of chitins and it is composed of a polymer called cellulose. Due to its turgor pressure, it prevents plant cells from undergoing cytolysis. Name this rigid permeable structure absent from an animal cell that surrounds the plasma membrane of most plant cells.

CELL WALL

10. Correct the following sentence, if necessary: Will you give Harrison and I more ice cream?

CHANGE "I" TO "ME" (Accept equivalents)

11. The aquarium is 12 inches long by 8 inches wide by 10 inches deep. What is the volume of the aquarium in cubic inches?

960 (CUBIC INCHES)

12. This art form resembles decoupage [day-koo-PAHZH] and photomontage [fo-to-mahn-TAHZH]. An invention of Synthetic Cubism, it consists of everyday materials fastened to a background. Identify this art form that may use newspaper clippings, ticket stubs, or photographs.

COLLAGE

13. The president and vice president play key roles in this government branch. It also includes the president's cabinet. What branch's responsibilities include enforcing laws made by Congress?

EXECUTIVE (BRANCH)

14. The nearest living relatives of these creatures are horseshoe crabs. These creatures became the most common animals on Earth during the Cambrian Explosion, but these water-dwelling arthropods went extinct at the end of the Permian period. Name this diverse group of insect-like fossil animals named for their three -lobed bodies.

TRILOBITES

15. Spelled one way, this word is a synonym of "rough." Spelled another way, it names a college class or one part of a meal. Give this word for the place where golf is played.

COARSE/COURSE (ACCEPT EITHER ONE OR BOTH)

16. This question requires multiple responses. Between what two whole numbers does the probability of an event occur?

0, 1 (ZERO, ONE)

17. Some historians call this art style Neo-Impressionism. Paul Signac [seen-YAK] learned it from his mentor and the style's inventor, Georges Seurat [ZHAWRZH suh-RAH]. What was this style that used small brush strokes or dots of color that the viewer's eye blended together?

POINTILLISM (Accept POINTILLIST)

18. This legal term sounds like the last part of a TV game show. What term means you cannot be tried or face punishment for the same crime more than once?

DOUBLE JEOPARDY

19. Taxonomy is the biologic science of classification that arranges organisms into groups like orders and families. The modern system divides all organisms into one of five of these broad categories. What is the term for the largest taxonomic group after Domain, with Animalia and Plantae as examples?

KINGDOM

20. How many words in the following sentence need to be capitalized? Our class began reading The Lion, the Witch and the Wardrobe.

FIVE

21. The first four numbers in a sequence are 3, 7, 11, and 15. What is the next number in the sequence?

19 (NINETEEN)

22. This artist imagined similar scenes in his paintings Circus Sideshow and The Circus. His works, including Can-Can and The Eiffel Tower, consist of small dots of pure color. Who was this leader of the Pointillist style?

(GEORGES) SEURAT [ZHAWRZH suh-RAH]

23. Land, tools, and workers are examples of these things. Some adjectives used to describe these are natural, renewable, and non-renewable. What are things that people need to meet their needs and wants?

RESOURCES

24. Iron is an example of these inorganic substances that keep the body working properly. They help to keep teeth and bones strong and also maintain muscles. Identify this class of substances that work with vitamins in order to maintain optimum health.

MINERALS

25. This part of speech can be relative, demonstrative [duh-MON-struh-tiv], or indefinite. It may also be reflexive, intensive, or personal. What is this part of speech, whose examples include "ourselves" and "my"?

PRONOUN(S)

26. This question requires multiple answers. What are the exponents in the mathematical expression 2 cubed plus 4 squared?

3, 2

27. Like the Mennonites, this Christian group descends from Swiss and German Anabaptists. Followers dress simply and many work as farmers, carpenters, or blacksmiths. Name this group that lives separately from the rest of society and refuses to use electricity or technology.

AMISH

28. This mountain is located in Georgia. It has an enormous relief carved into its north face. What mountain includes a carving of Confederate leaders?

STONE (MOUNTAIN)

29. This technology also used Network Control Programs, which are analogous to communication protocols, and its applications increased with the development of file transfer protocol, though the majority of its early usage was for e-mail. Name this predecessor of the internet, developed by a part of the Defense Department.

ARPANET

30. Identify the following sentence's noun clause: I will tell whoever will listen my good news.

WHOEVER WILL LISTEN

END OF ROUND SECOND HALF – Begin three minute inquiry period

EXTRA QUESTIONS

MA. Van Gogh used four blue paints and three green paints. He then added four more blue paints and 1 more green paint. How many total paints did Van Gogh use?

12 (PAINTS)

AH. This animated film is named for a magical, mountainous realm that protects the Madrigal family. Its protagonist, Mirabel, searches for answers when her family members begin losing their magical powers. Identify this Disney movie that gave the world "We Don't Talk About Bruno."

ENCANTO

SS. This president is the only one to have been impeached more than once. He was elected in 2016. Who was the 45th president of the United States?

(PRESIDENT DONALD) TRUMP

SC. Dr Edward Jenner developed the first vaccine against this disease by studying a related illness in milkmaids. Due to his discovery, this disease was declared eradicated in 1979. Name this infectious disease that killed many natives of the Americas and was probably a mutated form of cowpox.

SMALLPOX

LA. Spelling required. Every afternoon, the performers will rehearse for the talent show. Spell the word from the previous sentence that is a synonym of "practice."

R-E-H-E-A-R-S-E
