90 (DEGREES)

7. In painting, this word can refer to a thin, transparent layer of color spread over a painted surface. In ceramics, it is a smooth coating that can be clear or colored. What is this word that also names a sugary syrup found on some donuts?

GLAZE

8. This leader was shot while he was traveling through Bosnia. What Archduke was assassinated by Gavrilo Princip?

(ARCHDUKE FRANZ) FERDINAND

9. Brownian motion was first described as the motion of this substance in a drop of water. Name this powdery substance that may be carried by insects or the wind from plant to plant, a vital step in plant reproduction.

POLLEN

10. What type of grammatical error is found in the following sentence? Because her classes can be difficult.

(SENTENCE) FRAGMENT

11. A trapezoid has 3 sides with measures of 1 unit and a fourth side with a measure of 2 units. What is the perimeter in units of the trapezoid?

5 (UNITS)

12. This type of paint is cheaper and more vivid than oil paint. Fast drying and water-resistant, it first became commercially available in the 1950s. Name this paint that binds pigment with a plastic resin.

ACRYLIC (PAINT)

13. Linda Gorton serves in this position in Lexington. What is the elected head of government of a city or town?

MAYOR

14. They are one of the most diverse groups of marine invertebrates and play important ecological roles from the near-shore environment to the deep seas. Give the name of this phylum of marine invertebrates that include starfish, brittle stars, sea cucumbers, sea urchins, sand dollars, and crinoids.

ECHINODERM(ATA)

15. The first word in this hyphenated compound word is the antonym of "under." The third word is a kitchen surface for preparing food. What is this hyphenated word for medication that doesn't require a prescription?

OVER-THE-COUNTER

16. Each student chooses 3 different toppings for his/her pizza. There are six different toppings. How many pizza combinations can be made?

20 (POSSIBLE PIZZAS)

17. This early 20th-century art movement was influenced by the Post-Impressionists' use of bright colors. Its name means "wild animals" in French. Give the name of this short-lived movement led by Henri Matisse [ahn-REE muh-TEESE].

FAUVISM [FO-viz-um] (Accept FAUVIST, (THE) FAUVES)

18. According to the laws of the United States, every person has this right to learn. What right is fulfilled by schools in our country?

EDUCATION

19. These vertebrates are a group of aquatic animals with skulls, gills and digitless limbs. They are separated into groups such as jawless, cartilaginous, and jawed based on their anatomy. Name this group of vertebrates that may also be swimming in a glass bowl in your house.

FISH

20. This punctuation can show that a speaker's thoughts have trailed off. It also indicates a word, phrase, line, or paragraph has been omitted from quoted material. Name this punctuation colloquially called "dot dot dot."

ELLIPSIS

21. A number pattern begins with 175. Each number is reduced by 2. What is the third number in the pattern?

171 (ONE HUNDRED SEVENTY-ONE)

22. This artist included a contemporary physician's portrait in The Anatomy Lesson of Dr. Tulp. He addressed the fleeting nature of fame in Aristotle Contemplating a Bust of Homer. Name the Dutch Baroque painter of The Night Watch.

REMBRANDT (VAN RIJN) [VON RINE]

23. These scientists look for patterns in the choices people make and how they use resources. What are scientists who study economies called?

ECONOMISTS

24. One common disorder in these body parts is gout, caused by the build-up of tiny crystals between bones. Name these body parts that allow movement between bones such as hips and elbows.

JOINTS

25. An example of this phrase is found in the sentence, "Smoking is bad for your health." In what kind of phrase does a verb ending in -ing act as a noun?

GERUND [JAIR-und] (PHRASE)

26. Sally likes to race the clock to solve her math problems. She can solve 3 problems in 5 minutes. At this rate, how long will it take her to solve 30 problems?

50 (MINUTES)

27. In California, Southwest, and Plains Indian cultures, this animal secured daylight and fire for humanity. He tricked Porcupine out of buffalo meat, tried to hunt alongside Skunk, and dumped his grandmother's acorns into a river. Name this trickster figure that, in appearance, resembles a wolf.

COYOTE

28. This document was added to the Constitution. It spells out Americans' rights. What document includes the first ten amendments?

BILL OF RIGHTS

29. On October 22, 1946, Chester Carlson inked the date and place on a piece of glass, then he electrostatically charged a chemically treated metal plate. He aimed light on the glass and plate, sprayed the plate with dye and pressed a piece of paper to the metal. When the sheet was pried off, the date and place was visible; name the process that was born.

XEROGRAPHY (ACCEPT: XEROX)

30. This type of phrase is part of the sentence, "The pirate wanted to bury the treasure quickly." Name this kind of phrase that includes "to" and a verb.

INFINITIVE (PHRASE)

END OF ROUND SECOND HALF – Begin three minute inquiry period

EXTRA QUESTIONS

MA. The President traveled to New York by motorcade. The motorcade drove 4 hours at 65 miles per hour. How many miles did the President' travel?

260 (MILES)

AH. In 2022, this singer announced that Ramsay Hunt Syndrome had caused his temporary facial paralysis. The husband of model Hailey Baldwin, he combined his fourth and fifth albums to create the Justice World Tour. Identify this singer of "Sorry," "Love Yourself," and "Ghost."

(JUSTIN) BIEBER

SS. He represented Delaware in the Senate for 36 years. He was one of the youngest people elected to the Senate before becoming Obama's vice president. Who is the oldest person elected to the presidency?

(JOE) BIDEN

SC. This scientist erroneously proposed a triple helical structure for DNA. This man discovered the secondary protein structures of alpha helices and beta sheets, and identified defects in hemoglobin as the cause of sickle cell anemia. Name this Caltech scientist who won Nobel prizes in both chemistry and peace.

(LINUS) PAULING

LA. Spelling required. The new medication has great significance for treating the disease. Spell the word from the previous sentence that is a synonym of "importance."

S-I-G-N-I-F-I-C-A-N-C-E
