

1. This symbol is also called the G clef because it wraps around a staff's second line. It means the staff's lines are, from bottom to top, E, G, B, D, F and its spaces are F, A, C, and E. What is this clef, whose notes a pianist plays with the right hand?

TREBLE (CLEF)

2. Three real numbers, A, B, and C are on a number line. Number B is between A and C and to the left of C. Which number is the largest of the three numbers?

(NUMBER) C

3. This novel's title comes from the Twelve-Step meetings the protagonist overhears. Set in tiny Hard Pan, California, it includes a motherless girl's mistaken belief that her guardian Brigitte is moving back to France. Name this Newbery winner by Susan Patron [puh-TROHN].

(THE) HIGHER POWER OF LUCKY

4. This river is formed when the Levisa Fork meets the Tug Fork in northeastern Kentucky. Give the name of the river that forms a boundary between Kentucky and West Virginia.

BIG SANDY (RIVER)

5. This heterogeneous [het-uh-roh-JEE-nee-us] mixture has solid particles that are dispersed, but not dissolved, in a liquid. If left alone, the solid particles will separate and settle over time. What kind of mixture is water and sand?

SUSPENSION

6. Happy the Clown needs 45 balloons to make the balloon animals for the party. Balloons come in packages of eight. How many whole packages must Happy buy for the party?

6 (SIX PACKAGES)

7. In this picture book, a poem uses the words of Gwendolyn Brooks, Langston Hughes, and Martin Luther King, Jr. It covers slavery's horrors, the Civil Rights movement, and African-Americans' resilience today. Name this Caldecott winner with art by Kadir [kuh-DEER] Nelson and words by Kwame [KWA-mee] Alexander.

(THE) UNDEFEATED

8. This Confederate general was commander of the Army of Mississippi and later the Army of Tennessee and played an important role in one of Kentucky's most important Civil War battles. Name the Confederate general who was forced to retreat from Kentucky to Tennessee following the Battle of Perryville?

(GENERAL) (BRAXTON) BRAGG

9. In this kind of work, a singer's solos are called arias. An orchestra accompanies performers who sing, act, and sometimes dance. Identify this genre of Beethoven's *Fidelio* and Mozart's *The Marriage of Figaro*.

OPERA

10. This force is what propels a flying machine in the direction of motion. Engines usually generate this force, which is how a craft maneuvers in outer space. Identify this counterpart of weight, drag, and lift.

THRUST

11. This rock is a member of the spinel [spuh-NEL] group. Early compasses used it because it naturally pointed north. Identify this rock, whose natural polarity attracts iron.

LODESTONE (Accept MAGNETITE)

12. This oldest brass instrument only had piston valves added around 1820. Its thin tubing gives it a bright sound, and its most popular versions are pitched in B-flat and C. Identify this smallest and highest-pitched brass instrument in a standard orchestra.

TRUMPET

13. Director Taika Waititi created an acclaimed television series about teenagers growing up on this type of land which stars D'Pharaoh Woon-A-Tai, Devery Jacobs, and other fully indigenous actors. What is the name for an area of land that is set aside to be inhabited and self-governed by Native American populations?

(INDIAN) RESERVATION(S)

14. One poem in this unstructured form is Walt Whitman's "Song of Myself." Give the two-word phrase for a poem that lacks both meter and rhyme.

FREE VERSE

15. Give your answer as a mixed number in lowest terms. Carson finished a book by reading the same number of pages every day for 8 days. If the book had 76 pages, how many pages did he read each day?

9 1/2 (NINE AND ONE-HALF PAGES)

16. This ancestor of the classical guitar descended from the Middle Eastern oud [OOD]. The sitar is a type of this instrument, whose popularity was highest during the Renaissance. Name this stringed instrument with a hollow, pear-shaped body.

LUTE

17. This author's works combine Christianity with fantasy and elements of modern science. She created the Austin family in the *Chronos* series and the Murry and O'Keefe families in the *Kairos* chronicles. Identify this writer of *A Wrinkle in Time*.

(MADELEINE) L'ENGLE

18. This mineral ranks a 4 on the Mohs hardness scale. It naturally grows in cubic crystals that can be colorless, purple, yellow, blue, or green. Name this mineral that glows under a blacklight.

FLUORITE

19. Workers are often referred to by this term when they perform jobs in manual labor such as mining, construction, and manufacturing. Give the colorful name for this type of worker or job which is often contrasted with those considered "white-collar".

BLUE-COLLAR

20. There are 12 empty seats on a plane and 40 occupied seats. What is the ratio of occupied seats to the total number of seats on the plane?

10:13 (TEN TO THIRTEEN) (ACCEPT: TEN OVER THIRTEEN OR TEN-THIRTEENTHS)

21. This literary element is also called atmosphere. The writer uses a piece's diction, setting, and tone to create it. What do we call the emotions a written piece evokes in the reader?

MOOD

22. The cultivation of this cash crop was an important source of revenue for the early settlers in the Colony of Virginia. Name this crop, often credited as introduced in Virginia by John Rolfe, which would later be important to the economies of such U.S. states as North Carolina and Kentucky.

TOBACCO

23. The composer later included this 3-minute work in his *Third Symphony*, which he published in 1946. The Cincinnati Symphony commissioned this work, which the composer dedicated to everyday Americans sacrificing for the war effort. Give the title of this percussion and brass composition by Aaron Copland [COPE-lund].

FANFARE FOR THE COMMON MAN

24. This part of the hydrosphere is what people hit when they dig a well. Its highest level is the water table, which gets pumped to the surface. Give the word for this underground reservoir inside rocks.

AQUIFER

25. Each art group uses 3 pints of tempera to complete their projects. The class used 1.5 gallons of tempera. How many pints of tempera did the class use?

12 (TWELVE PINTS)

26. A triangle has three angles measuring 60 degrees each. What type of triangle has three equal angles?

EQUILATERAL (TRIANGLE) (ACCEPT: EQUIANGULAR TRIANGLE)

27. Some tall tales claim this man had a son with his wife Polly Ann. He sang, played the banjo, and worked in the Allegheny Mountains for the Chesapeake and Ohio Railroad. Who was this former slave who died after defeating a steam drill in a race?

(JOHN) HENRY
